

**MEMORANDUM**

TO: Mayor and Council  
FROM: Lori Stelzer, City Clerk   
RE: Res. No. 2017-08 Correcting Scrivener Errors for Res. No. 2016-33  
DATE: June 23, 2017

---

On February 14, 2017, the City Council approved Resolution No. 2016-33, under which the City, pursuant to Section 197.3632, Florida Statutes, elected to use the uniform method of collecting non-ad valorem assessments to provide annual funding for the provision of fire protection services and facilities. Exhibit B, attached to Resolution 2016-33, provided a legal description of the entire incorporated area of the City to be used in levying these assessments. The legal description was submitted to the Sarasota County Property Appraiser for its review and implementation.

Upon its review, the Sarasota County Property Appraiser discovered a number of errors in the legal description. The City's professional land surveyor, working in conjunction with City staff, the City Attorney's office, and staff from the Property Appraiser's office, prepared a revised legal description to address the errors in the original legal description.

City Council approval is now requested to approve Resolution No. 2017-08 to amend Resolution No. 2016-33 by replacing Exhibit B with the revised legal description.
