Subject: AGENDA ITEM LAND CLEARING METHODS

Lori, please add to our June 26th council meeting, Land clearing methods.

I have deep concerns about current methods used to clear land within our city limits.

There are times when it is difficult to breath because of the burning to clear land in North Venice.

The burning has impacted air quality well over a mile from the burn site.

Residents have complained to me in the past about the burning and not being able to breath.

Thanks
