Mr. Howard:

Thank you for serving in your positions, often a thankless position.

We are in full support of the current plans and petition from Venice Theatre regarding the approval required from The planning commission and the City Council.

While the preservation of Venice zoning has been a hot spot in process, and with the realization that this request from Venice Theatre may be outside of the norm - we think it is imperative to the long term financial and cultural good for the businesses and residents of Venice.

The Venice Theatre has been a national institution for several decades, brings revenue, life and culture to the downtown business district. It is necessary to plan for the future, and the Venice Theatre plans seems to have ambitiously embraced what is needed to continue this important institution in downtown Venice.

Thank you for your consideration,
Kary and Jennifer Miller
