MILANO

**PLANNED UNIT DEVELOPMENT (PUD)
BINDING MASTER PLAN AMENDMENT**

July 3, 2023

ADOPTED BY ORDINANCE NO. 2023-11

July 11, 2023

MILANO PUD AMENDMENT

PROJECT NARRATIVE

The Milano PUD is 503.9 +/- acre property located south of Laurel Road, north of Border Road, and bisected by the Jacaranda Boulevard Extension. The property is located within the Northeast Neighborhood of the Comprehensive Plan and has a Future Land Use Designation of Mixed Use Residential (MUR). The Milano PUD approved by Ordinance No. 2017-25 is a residential community consisting of detached single-family homes, paired villas, multi-family homes, amenity centers and open space. The density approved for the Milano PUD is up to 1,350 dwelling units.

The Milano PUD was amended by Ordinance No. 2020-40, which approved revisions to the PUD binding master plan which were all located within the approximately 36 acre development pod at the northwest corner of the Milano PUD, and were limited to the addition of one access point along Laurel Road and the restriction of the existing access point to egress only, the addition of project signage at the new access point, the addition of lot standards for townhomes, a modification of driveway standards for townhomes, the addition of an Amenity Area, the addition of alternative roadway sections to allow for on street parking, and minor modifications to conceptual stormwater pond configurations.

The Milano PUD was amended by Ordinance No. 2022-23 to remove 24.1 acres of open space along the western boundary of the Milano PUD, an area of open space which was added to the adjacent GCCF PUD and remains open space within the GCCF PUD. Removal of the open space reduced the Milano PUD acreage to 503.9 acres, the minimum 50% open space within the Milano PUD was maintained and exceeded. No other changes were proposed with the amendment.

This amendment to the Milano PUD proposes to re-designate a 10.42-acre parcel at the southwest corner of the Jacaranda Boulevard and Laurel Road, within the Milano PUD, from Open Space to Commercial, to add access points for the Commercial parcel and establish development standards for the Commercial parcel. The proposed Commercial designated parcel will allow for the provision of limited retail and service uses to meet the needs of the residents of the PUD while reducing trip lengths and increasing multi-modal accessibility to such services for the residents. The PUD requirement for a minimum of 50% Open Space will continue to be maintained.

All internal roadways will be privately owned and maintained. The on-site storm water management system will be privately owned and maintained. Water and wastewater facilities will be dedicated to the City of Venice.

COMPLIANCE

The proposed amendment to the Milano PUD plan remains consistent with all applicable elements of the City's updated 2017 Comprehensive Plan. Specifically, the proposed amendment to the Milano PUD is consistent with *Land Use Element and Northeast Neighborhood Element Strategies LU 1.2.16, LU 1.2.17, and LU NE 1.1.1.A and C.*, with respect to density and open space, and with *Open Space Element Intents OS 1.1, OS1.2, OS 1.3, OS1.4, OS 1.5 and OS 1.6* with respect to open space uses, wetlands, native habitats and open space corridors, and with *Land Use Element Intent LU 4.1.*, with respect to transitional strategies related to compatibility, and development standards.

Finally, the proposed Milano PUD is in compliance with the City of Venice Land Development Code Sec. 86-130 requirements for Planned Unit Development (PUD) Districts as outlined in the below Land Use and Development Standards.

LAND USE AND DEVELOPMENT STANDARDS

The following identifies the proposed development standards for the Milano Planned Unit Development. In furtherance of the interpretation authority granted by the City of Venice Comprehensive Plan and Land Development Code, the Zoning Administrator shall have authority to administratively approve minor modifications of standards contained with the Milano Planned Unit Development, excluding standards related to density, building height, buffer widths, and the addition of permitted uses. Reasonable mitigation measures may be imposed by the Zoning Administrator to limit impacts from the requested adjustment of standards. Where the PUD master plan identifies areas for residential uses, the developer shall have the option to convert such residential use areas to open space uses.

Any standard not stated or otherwise addressed in the binding master plan is subject to Section 86-130, City of Venice PUD standards.

PROPOSED MILANO PUD MODIFICATION TO STANDARDS

- 1) A modification to the requirements of Sec. 86-130 (q), concerning the requirement that no structure shall be located closer to any perimeter property line than two times the height of such structure, is requested. The proposed modification is to reduce the required setback from perimeter property lines to one times the building height.

The proposed modification request is justified based upon the low intensity of the development plan, the extensive perimeter buffers and the significant amount of open space otherwise provided.

- 2) A modification to the requirements of Sec 86-232(5) concerning the roadway design standards is proposed and an alternative neighborhood roadway design is proposed. The proposed modification reduces right-of way width from 52' to 43', allows for sidewalks on one side of the neighborhood roadway only, and eliminates bike lanes for the neighborhood roadways.

The proposed modification request is justified based upon the protection of wetlands and their buffers afforded by the modification, the low intensity of the development plan, and the circulation plan which demonstrate sidewalks on one side of the street will provide excellent pedestrian connectivity from each of the development pods to the amenity center and also to the sidewalk and multi-use trail along Jacaranda Boulevard.

- 3) A modification to Sec. 86-130 (h) is requested concerning building height. The proposed modification is to replace the Land Development Code standard of 35' over 10' of parking with the Comprehensive Plan standard of 3 stories up to 42' including parking.

The proposed modification, at the direction of City staff, is necessary to address an inconsistency between the City's Land Development Code and its Comprehensive Plan.

- 4) A modification to Sec. 86-423(b) is requested concerning driveway standards for Townhomes. The proposed modification is to substitute the driveway dimension as depicted on the Typical Lot Detail for Townhomes (Page 7), and to reduce the required minimum distance from the edge of pavement of two intersecting streets from 40 feet to 30 feet.

The proposed modification is justified based upon the width of Townhome lots, and the limited number of driveways which will be located in proximity to the intersection of two streets, and the number of lots that would not meet the 40 foot standard (one lot).

SURVEYOR'S REPORT

- THIS SURVEY WAS PREPARED WITHOUT THE BENEFIT OF A CURRENT TITLE COMMITMENT REPORT;
- THE LOCATION OF TREES, UTILITIES, UNDERGROUND AND/OR NON-VISIBLE STRUCTURES INCLUDED BUT NOT LIMITED TO FOUNDATIONS, MANHOLES, VAULTS AND DRAINFIELDS, ETC. OR ANY OTHER PERTINENT ATTRIBUTES AFFECTING SUBJECT PROPERTY NOT ABSTRACTED AS PART OF THIS SURVEY EXCEPT AS SHOWN;
- BEARINGS ARE BASED ON THE RECORD PLAT OF CIELO SUBDIVISION AS RECORDED IN PLAT BOOK 53, PAGE 288. A BEARING OF N89°10'25"W FOR THE NORTH TRACT LINE OF TRACT 700 WAS USED AS SHOWN HEREON.
- UNLESS OTHERWISE NOTED, ALL BEARINGS AND DISTANCES SHOWN HEREON WERE COMPUTED FROM A REDUNDANCY OF FIELD MEASUREMENTS USING ELECTRONIC MEASURING SYSTEMS AND COMPUTER MAPPING TECHNOLOGY;
- PROPERTY SITUATED IN FLOOD ZONE "X" PER F.E.M.A. FLOOD INSURANCE RATE MAP 12115C0244F, EFFECTIVE DATE 11/04/2016;
- ELEVATIONS (IF ANY) REFER TO NATIONAL GEODETIC VERTICAL DATUM (N.A.V.D.) OF 1988. BENCHMARK USED WAS SARASOTA COUNTY BENCHMARK #P-699 WITH A PUBLISHED ELEVATION=14.06';
