3/6/2022 21:31:05	JAMES	PYLATE	Yes	20389 Minuet Pl	34293		OUR FAMILY MOVED HERE BECAUSE WE LOVE THE QUAINT CHARM OF BEAUTIFUL DOWNTOWN VENICE. WE WOULD HATE TO SEE THIS WONDERFUL CITY RUINED BY THE ADDITION OF HIGH RISES AND TALLER BUILDINGS. THESE THINGS ARE NOT NECESSARY IN ORDER FOR THIS COMMUNITY TO BECOME MORE MODERN. SUBLTE AND INVENTIVE CHANGES TO EXISTING STRUCTURES WOULD BE MORE THAN SUFFICIENT.
3/6/2022 21:35:50	Dorothy A.	Rynard	No	636 W Venice Ave, Venice, FL & 6439 Ft4285 & 46227			PLEASE, PLEASE KEEP DOWNTOWN VENICE THE QUAINT VILLAGE IT IS!!!!!! We certainly do NOT need a high-rise building on Venice Avenue. The old building where Dick's Shoes use to be needs to come down but not with a high rise!!!!!! Please don't let developers come in and ruin our unique place to live!!!!!! There are plenty of Sarasotas, Naples, Ft Myers, etc. Nothing in the world like Venice, Florida!!!!

3/6/2022 21:46:06	Diane	Zinni	No	1070 Laurel Rd E #383, Nokomis, FL 342	34275	mtnbliiss@gmail.com	The Venice area attracted us because of its charm--which is due to the lack of high rise development. High rises change the flavor of a community. The sun and sky are blocked and the environment feels much more closed in. Don't give away your calling card to developers. They will make their money, and the town will lose it's charm. High rises cause population density which causes traffic issues and makes places much less appealing for walking and riding bikes. You've done a great job of creating a beautiful downtown where people stroll, bike, and enjoy shopping and dining. PLEASE don't ruin it by surrounding it with high rise buildings. We LOVE Venice and come here all the time to shop and dine. We come because of it's charm. We DON'T go to Sarasota because it feels like a city with it's high rises everywhere. DON'T sell out to developers. Small is beautiful!!! DON'T build it and people will continue to come and support the charming town of Venice!

3/6/2022 22:43:42	Mark	Nleman	No	238 Tampa Ave W #221	34285	Mdnemo@gmail.com	My partner and I purchased a condo in the KMI Building in 2016. The main reason we purchased was downtown Venice. The mom and pop stores and restaurants and the people who work there, the small town vibe. That's what makes Venice special! It can't turn into Daytona, Miami or Fort Lauderdale. I feel safe walking home in the evening. The more people, the more crime, especially if people are just renting for a few weeks or months. Venice would lose its charm if this goes through. There are already too many high rise condos near the beach! Old downtown Venice is a huge draw for travellers. Its history and beauty are unprecedented. Please don't change it! Planing to be a resident in next few years. It is important to preserve history of Venice. This is not a place for high rise type building. Keep the home town look. Go to Sarasota to build big.

First, I purchased a home on the island of Venice because the community has worked hard to preserve the quaintness and it's historical integrity. That would be slowly eroded and compromised with the congestion that would be caused by overdevelopment and high rise buildings. Also the infrastructure would not be able to sustain the utilities and medical services necessary to support such development. Venice is a unique community...that is why many people are here. Let's keep it that way. Please keep us informed! Save our beautiful town!

							Protect one of our greatest asset's downtown.
							What happens in Venice doesn't only impact the city but those of us who live outside the city limits. We are opposed to any changes to the height limit on buildings along West Venice Avenue or streets nearby. All residents have to do is look to the damage done in Naples and Sarasota with increasing height limits on buildings. There is more traffic and the entire character of the cities is changed and compromised forever. There is no going back. People move here because of the quaintness of Venice but as taller building come in they chip away at that small town flavor. Venice becomes just another place with mega stores and tall buildings losing the design once appreciated by its residents.

Now we live in nearby Nokomis and frequent Venice regularly for its festivals, shopping, dining, and to bring our guests on outings. We urge you to NOT increase the building height restrictions. So many times we've bragged that Venice knows how to do things right—it hasn't tried to cram in people in high rises like Sarasota. Traffic is full now, but still doable. Don't increase the density through high rises. Venice will never be the same. Traffic will increase, parking will be a nightmare, the overhead sky will disappear. And for what? The character of the place will be gone. That's something that you will never ever recover.

We've wintered and owned in Venice for the last 22 years and have witnessed the quality of life steadily deteriorate. You can't go out to dinner at normal times; you can't find a parking place at the beach; traffic is horrendous any time of day.. Why do the tax paying citizens of Venice have to suffer so that the developers can get richer??? The restaurants and store owners were profitable and happy 15 years ago, before the politicians decided to side with the developers. Now everyone is suffering. You hear complaints everywhere you go. It makes one wonder what the motivation is for the politicians to keep approving the overbuilding. I once had the illusion that elected officials were supposed to represent their constituents and do what was best for them. People moving to Florida do NOT have the right to ruin our once beautiful paradise. Do your jobs and represent the majority of the taxpayers; turn down future developments.

We came there 60+ years ago on our honeymoon, and have visited many times over the years with our family. We are now coming yearly as snowbirds. We love Venice as it is and would hate to see more high rise buildings. Especially in the downtown area. Let's fight this! Willing to write a check! I object to the new language in the LDR being presently considered that are being tailored by the commercial developers as the primary influencers rather then considering the impact on the tax paying residents who want to preserve the tranquility of the existing neighborhood lands . These changes are not lawful or beneficial to residential neighborhood communities .
