

Required Forms List: ITB# 3010-15: Border Road Water Main Extension Re-bid

- ✓ Proposal Bond
- ✓ Local Preference Form
- ✓ Qualifications Statement
- ✓ Trench Safety Acknowledgement
- ✓ Cooperative Procurement with Other Jurisdictions
- ✓ "Form- 3A" Interest in Competitive Bid for Public Business
- ✓ Indemnification/Hold Harmless
- ✓ FDEP & U.S. EPA Construction "Notices of Intent"
- ✓ Statement of References for Contractor
- ✓ Contractor's Statement of Sub-Contractors
- ✓ Drug Free Workplace Certification
- ✓ Scrutinized Company Affidavit and Certification
- ✓ Non-Collusion Affidavit
- ✓ Public Entity Crime Information
- ✓ Bid Submittal Form

Forms must be returned with each firm's proposal.

Mark "N/A" if not applicable to your firm.

PROPOSAL BOND

**Not to be completed if a certified check is submitted.*

KNOW ALL MEN BY THESE PRESENTS: That we, the undersigned,

Quality Enterprises USA, Inc. as Principal,

and Fidelity and Deposit Company of Maryland as Surety

are held and firmly bound unto the City of Venice, Florida, in the sum of

~~-Five-Percent-of-Amount-Bid-~~ \$ 5%-of-Bid-, for the payment of which, well and truly to be made, we hereby jointly and severally bind ourselves, our heirs, executors, administrators, successors and assigns.

The condition of the above obligation is such that if the attached Proposal of Principal and Surety for work specified as:

Border Road Water Main Extension Re-Bid - Solicitation Number: 3010-15

all as stipulated in said Proposal, by doing all work incidental thereto, in accordance with the plans and specifications provided heretofore, all within Sarasota County, is accepted and the bidder shall within ten (10) days after notice of said award, enter into a contract, in writing, and furnish the required Performance Bond with surety or sureties to be approved by the Director of Purchasing, this obligation shall be void; otherwise the same shall be in full force and virtue by law and the full amount of this Proposal Bond will be paid to the City as stipulated or liquidated damages.

Signed this 26th day of August, 2015.

HOW DO I DETERMINE "LOCAL PREFERENCE"

The following questions will help you determine local preference for your company. Please answer questions 1 through 4 **FIRST**. If you answer **NO** to any questions 1 through 4, local preference does **NOT** apply. **ONLY** if you answer **YES** to questions 1 through 4, may you proceed to question 5. If you answer **YES** to any questions 5 through 7, local preference applies. If you are unsure of how to answer any questions, please contact the City of Venice's Purchasing Department at 941-486-2626.

Questions 1 – 4

1. Have you paid a local business tax either to Sarasota, DeSoto or Charlotte County (Manatee County does not have a local business tax) authorizing your company to provide goods or services described in this solicitation ?

YES ___ If "yes", proceed to question 2.

NO ___ If "no", **STOP, local preference does not apply.**

* If the name on the local business tax receipt is not the same as the name on the bid/solicitation submittal, local preference does not apply.

2. Does your company maintain a permanent physical business address located within the limits of Sarasota, Manatee, DeSoto or Charlotte County ?

YES ___ If "yes", proceed to question 3.

NO ___ If "no", **STOP, local preference does not apply.**

3. Does your local business office (identified in question 2) have a least one full time employee ?

YES ___ If "yes", proceed to question 4.

NO ___ If "no", **STOP, local preference does not apply.**

4. Do at least fifty percent (50%) of your company employees who are based in the local business location (identified in question 2) reside within Sarasota, Manatee, DeSoto or Charlotte County ?

YES ___ If "yes", proceed to question 5.

NO ___ If no, **STOP, local preference does not apply.**

Questions 5 – 7

5. Is your local business office (identified in question 2) the primary location (headquarters) of your company ?

YES ___ If "yes", **STOP, local preference applies.**

NO ___ If "no", proceed to question 6.

6. If the local business office (identified in question 2) is not the primary location of your company, are at least ten percent (10%) of your company's entire full-time employees based at the local office location ?

YES If "yes", **STOP, local preference applies**
NO If "no", proceed to question 7

7. If your local business office is not the primary location of your company, does at least one corporate officer, managing partner or principal owner of the company reside in Sarasota, Manatee, DeSoto or Charlotte County ?

YES If "yes", **STOP, local preference applies**
NO If "no", local preference does not apply.

QUALIFICATIONS STATEMENT

The undersigned certifies under oath the truth and correctness of all statements and all answers to questions made hereinafter:

SUBMITTED TO: CITY OF VENICE

CITY OF VENICE, FLORIDA
FDEP & U.S. EPA CONSTRUCTION NOTICES OF INTENT (NOI)

The undersigned bidder acknowledges the requirement of the U.S. Environmental Protection Agency (EPA) and the Florida Department of Environmental Protection (FDEP) which have published the rules for NPDES General Permits for stormwater discharges from construction sites and said bidder agrees to assist the owner in the preparation of these permits and associated plans. The bidder acknowledges that he has taken these permits and associated construction costs into account in the preparation of his lump sum bid. These permits are mandated under Section 402(p) of the Clean Water Act for "Stormwater Discharge from Construction Activities (including clearing, grading, and excavation activities) that result in the disturbance of five (5) or more acres total land area, including areas that are part of a larger common plan of development or sale." The EPA has published summary guidance for: "Developing Prevention Plans and Best Management Practices" (EPA 833-R-92-001, October 1992).

The EPA permit format is a *Notice of Intent (NOI) for Stormwater Discharges Associated with Construction Activity to be covered under a NPDES Permit*, and it is to be submitted according to the NOI instructions. The Stormwater Pollution Prevention Plan which must accompany the NOI must be signed by authorized representatives of the contractor and subcontractors as well as the facility Owner. Copies of the EPA NOI must be provided to state and local agencies who have issued stormwater management, grading, or land alteration permits or approvals.

An NOI must also be submitted to the Florida Department of Environmental Protection, NPDES Stormwater Notices Center, MS 2510, 2600 Blair Stone Road, Tallahassee, FL 32399. FDEP forms may be downloaded from the State's web site <http://www.dep.state.fl.us/water/stormwater/npdes/> or phone 850-921-9870 if you have questions.

Acceptance of the bid to which this certification and disclosure applies in no way represents the Owner or its Representative has evaluated and thereby determined that the information is adequate to comply with the applicable U.S. EPA or FDEP requirements nor does it in any way relieve the contractor of its sole responsibility to comply with the applicable U.S. EPA and FDEP requirements, including inspection of all control measures at least once each week and following any storm (rainfall) event of 0.5 inches or greater and maintaining reports of each inspection.

Bidder (Company): Quality Enterprises USA, Inc.

ORDINANCE 95-12

AN ORDINANCE OF THE CITY OF VENICE, FLORIDA, AMENDING THE CODE OF ORDINANCES BY AMENDING CHAPTER 9, HEALTH AND SANITATION, ARTICLE IV, DISPOSAL OF EXCRETA, SECTION 9-71, DISCHARGE OF RAW SEWAGE INTO STORMWATER; DELETING ARTICLE V, PROHIBITED STORMWATER DISCHARGES; ADDING CHAPTER 19, WATER AND SEWERS, ARTICLE VI, STORMWATER QUALITY; DELETING CHAPTER 15, STREETS AND SIDEWALKS, ARTICLE IV, EXCAVATIONS, SECTION 15-53, STORM DRAINAGE AND POLLUTION; PROVIDING FOR CONFLICT WITH OTHER ORDINANCES; PROVIDING FOR A SEVERABILITY CLAUSE AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, control of stormwater runoff is necessary from individual lots that do not require a permit from the Southwest Florida Water Management District and requiring compliance with the provisions of the Clean Water Act 33 U.S.C.1251 et.seq., as amended by the Water Quality Act of 1987; and

WHEREAS, the City is desirous of complying with its U.S. Environmental Protection Agency National Pollutant Discharge Elimination System Permit and its Stormwater Master Plan, therefore, stormwater runoff and any discharge to the City storm sewer system will be closely monitored and regulated; and

WHEREAS, the control of stormwater runoff is the responsibility of each individual property owner; and

WHEREAS, the City is desirous of controlling stormwater runoff and insuring compliance with the Comprehensive Plan.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF VENICE, FLORIDA:

SECTION 1. Chapter 9, Water and Sewers, Article IV, Disposal of Excreta, Section 9-71, Discharge of Raw Sewage into Storm Sewer, is amended to read as follows:

Sec. 9-71. Discharge of raw sewage into storm sewer.

It shall be unlawful for any person to discharge raw sewage or to discharge the effluent of and from any septic tank into the storm sewer system of the city or to construct or maintain any system of drainage, pipes, conduits or other apparatus whereby raw sewage or the effluent of and from any septic tank shall or may be discharged into or through the storm sewer system of the city.

SECTION 2. Chapter 9, Water and Sewers, Article V, Prohibited Stormwater Discharges, is deleted in its entirety.

SECTION 3. Chapter 19, Water and Sewers, Article VI, Stormwater Quality is added to read as follows:

ARTICLE VI. STORMWATER QUALITY

Sec. 19-141. Definitions.

As used in this article "industrial stormwater" means stormwater runoff from a site with industrial activities, as defined under 40 CFR Section 122.26(a)(14) U.S. Environmental Protection Agency regulation.

As used in this article "construction sites" refers to all sites.

As used in this article, "illicit discharge" is any discharge of anything other than stormwater to the municipal separate storm sewer system (MS4) or the waters of the State of Florida or the United States.

As used in this article "industrial wastewater" refers to liquids used by an entity in their course of business, that if discharged to the MS4, would degrade the quality of stormwater.

Sec. 19-142. Disposal of industrial stormwater discharges.

The following types of discharges to the municipal separate storm sewer of the city must be controlled as indicated.

(1) **Industrial wastewater/illicit discharge:** Industrial wastewater/illicit discharge may not be discharged to the city's municipal separate storm sewer system.

(2) **Industrial stormwater:** As required to comply with NPDES regulations, the quality of industrial stormwater which is discharged through the city's municipal separate storm sewer system may be subject to regulation or permitting, and any violation of such regulation or permit may be subject to an order to immediately cease such discharge.

Sec. 19-143. Runoff stormwater and Best Management Practice (BMPs) for construction sites.

BMPs shall be implemented as necessary, to insure that all discharges from construction activities are in compliance with the City of Venice EPA/NPDES Stormwater Permit and the Stormwater Master Plan, or the SWFWMD Permit or EPA's NPDES Construction Activity General Permit, whichever is most stringent in its requirements.

Best Management Practices include but are not limited to, the following requirements:

- (a) All site grading shall be conducted in such a manner that all stormwater management facilities located adjacent to the site are not altered in any way which will diminish their designated flow or pollutant removal capacity or the shape of the drainage facility.
- (b) Maintenance of vegetative buffers or use of a silt fence and/or staked hay bales which minimize erosion and retain sediment on site, shall be implemented prior to any construction activities taking place at sites which discharge to surface water or the municipal separate storm sewer system (MS4). These controls, when utilized, shall be secured and properly maintained during construction activities until the site has been stabilized with sod and/or seed and mulch. A double silt fence may be required as an additional measure to insure that discharges from the site are in compliance with water quality standards as established by the EPA/NPDES Stormwater Permit. Undisturbed vegetative buffers shall be maintained intact to the maximum extent possible to reduce erosion and the discharge of sediment from stormwater runoff. All areas of exposed soil shall be stabilized within 72 hours of attaining final grade.
- (c) Storm sewer systems (eg. inlets, pipes and ditches, etc.) adjacent to the site must be protected by a silt fence and/or staked hay bales during construction, to keep solids from entering conveyance systems.
- (d) Vehicles such as concrete or dump trucks and other construction equipment shall not be washed at locations where the runoff will flow directly into a lake, wetland, watercourse or stormwater conveyance system. Special areas must be designated for washing vehicles. In all new subdivisions, a wash area may be established by the owner/developer which can be used by the site contractor and home builders. If established, wash areas shall be located where the wash water will spread out and evaporate or infiltrate directly into the ground, or where the runoff can be collected in a temporary holding or seepage basin. Gravel or rock bases are recommended for temporary holding or seepage basins, to minimize mud generation. Underdrains shall be installed where infiltration basins are provided as required by the owner/developer's engineer or the Southwest Florida Water Management District. Upon completion of the project, the wash areas shall be graded and stabilized and any trash or waste shall be collected and disposed of properly.
- (e) Fuel, chemicals, cements, solvents, paints, topsoil, or other potential water pollutants shall be stored in areas where they will not cause runoff pollution. Toxic chemicals and materials, such as pesticides, paints, and acids, must be stored in accordance with manufacturer's guidelines. Groundwater resources shall be protected from leaching by placing a plastic mat, packed clay, tar paper, or other impervious material on any areas where toxic liquids are to be opened and stored.
- (f) A minimum of one permitted driveway must be established prior to construction and shall be used as the only access for ingress/egress during construction in order to provide minimum disturbance of drainage facilities and vegetative cover on site.

Sec. 19-44. Owner responsibility for stormwater runoff.

- (a) The control of stormwater runoff is the responsibility of each individual property owner.
- (b) Any property owner constructing or causing to be constructed any building which requires an elevated slab and the elevation of the building pad is higher than that of adjoining properties, will control stormwater runoff during construction. Likewise, any property that is filled more than twelve inches above the adjacent property must provide additional control measures for stormwater during construction. Upon completion of the work, all stormwater runoff shall flow to its natural preconstruction drainage swale, ditch, etc., or be retained in a retention or detention pond(s) designed and constructed for that purpose.
- (c) For any construction where the elevation of the building pad or site fill will be higher than adjoining properties, construction plans certified by a professional engineer registered with the State of Florida, retained by the property owner, will be provided to the City prior to issuance of a building permit.
- (d) Any single lot not covered under Southwest Florida Water Management District rules, exceeding forty-five percent in impervious coverage (including buildings, drives, sidewalks, patios, etc.) shall require stormwater retention facilities to be designed by a Florida registered engineer. The design is to meet the City of Venice EPA/NPDES Permit requirements for quantity and quality of treatment.
- (e) The property owner's engineer will be required to certify to the City Engineer that construction was completed in accordance with the certified plans, prior to issuance of a Certificate of Occupancy.

(f) All improvements to property affecting stormwater drainage must be done in compliance with the City's Comprehensive Plan.

Sec. 19-145. Illicit discharges.

It shall be unlawful for any person to discharge anything other than stormwater into the city's municipal separate storm sewer system whether such discharges occur through piping connections, runoff, exfiltration, infiltration, seepage, or leaks. No person may maintain, use, or establish any direct or indirect connection to any storm sewer owned by the city that results in any discharge in violation of any provision of federal, state, city, or other law or regulation. This provision is retroactive to January 1, 1995, and applies to connections made prior to the effective date of this provision, regardless of whether made under a permit, or other authorization, or whether permissible under laws or practices applicable or prevailing at the time the connection was made.

No materials other than those composed entirely of stormwater shall be disposed of, dumped, or spilled into the city's municipal separate storm sewer system, whether such materials are in a solid or liquid form.

Sec. 19-146. Inspections.

It shall be the duty of the city engineer or designee to carry out all inspections, surveillance, and monitoring procedures necessary to determine compliance with this article.

SECTION 4. Chapter 15, Streets and Sidewalks, Article IV, Excavations, Section 15-53, Storm Drainage and Pollution, is deleted in its entirety.

SECTION 5. To the extent of any conflict between the provisions of this Ordinance, and any other Ordinance, Resolution, or Agreement of the City of Venice, Florida, the provisions of this Ordinance shall prevail.

SECTION 6. Severability. If for any reason a provision of this Ordinance or the application thereof to any person, group of persons, or circumstances is held invalid, the invalidity shall not effect other provisions or applications of the Ordinance which can be given effect without the invalid provision or application, and to this end the provisions of the Ordinance are severable.

SECTION 7. Effective Date. This Ordinance shall take effect immediately upon its adoption, as required by law.

PASSED BY THE COUNCIL OF THE CITY OF VENICE, FLORIDA, THIS 23RD DAY OF MAY, 1995.

First Reading: May 9, 1995 - Final Reading: May 23, 1995 - ADOPTION: May 23, 1995

ATTEST: /s/LORI STELZER, CMC, CITY CLERK /S/ MERLE L. GRASER, MAYOR

I, LORI STELZER, City Clerk of the City of Venice, Florida, a municipal corporation in Sarasota County, Florida, do hereby certify that the foregoing is a full and complete, true and correct copy of an Ordinance duly adopted by the Venice City Council, at a meeting thereof duly convened and held on the 23rd day of May, 1995, a quorum being present.

WITNESS my hand and the official seal of said City this 24th day of May, 1995.

/S/ LORI STELZER, CMC, CITY CLERK Approved as to form: /S/ ROBERT C. ANDERSON, CITY ATTORNEY

ORDINANCE 96-09

AN ORDINANCE OF THE CITY OF VENICE, FLORIDA, AMENDING THE CODE OF ORDINANCES BY AMENDING CHAPTER 19, WATER AND SEWERS, ARTICLE VI, STORMWATER QUALITY, SECTION 19-141, DEFINITION FOR INDUSTRIAL STORMWATER, SECTION 19-146, INSPECTIONS, PROVIDING FOR CONFLICT WITH OTHER ORDINANCES; PROVIDING FOR A SEVERABILITY CLAUSE AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Venice is responsible for the conservation, management, protection, control, use and enhancement of stormwater within its corporate limits, and for the acquisition, management, maintenance, extension, and improvement of the stormwater systems in the City; and

WHEREAS, the Environmental Protection Agency/National Pollutant Discharge Elimination System (EPA/NPDES) permit requires certain amendments to the existing Ordinance and extension of inspection authority on private properties.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF VENICE, FLORIDA:

SECTION 1. Chapter 19, Water and Sewers, Article VI, Stormwater Quality, Section 19-141, Definition, for Industrial Stormwater is amended to read as follows:

Sec. 19-141. Definitions.

As used in this article, "industrial stormwater" means stormwater runoff from a site with industrial activities, as defined under 40 CFR Section 122.26 (a) (b) (14), U.S. Environmental Protection Agency regulation.

SECTION 2. Chapter 19, Water and Sewers, Article VI, Stormwater Quality, Section 19-146, Inspections, is amended to read as follows:

Sec. 19-146. Inspections.

It shall be the duty of the city engineer or designee to carry out all inspections, surveillance, and monitoring procedures necessary to determine compliance with this article. The city engineer or his duly authorized agents may enter at all reasonable times in or upon any private or public property for the purpose of inspecting and investigating conditions and practices which may be a violation of this ordinance, regulation or permit. The city engineer may, whenever necessary, make an inspection of construction sites to enforce any of the provisions of this ordinance, regulation or permit issued hereunder, or whenever an authorized official has reasonable cause to believe there exists any condition constituting a violation of this ordinance, regulation or permit issued hereunder. The city engineer shall inspect the work and shall require the owner to obtain services to provide adequate on-site inspection. If the city engineer finds that eroded soils are leaving the construction site, the city engineer may direct the owner(s) or his agents or his contractor on the site by written order to install any and all erosion controls that are deemed necessary to prevent said soil erosion from migrating off site. Notwithstanding the existence or pursuit of any other remedy, the City may maintain an action in its own name in any court of competent jurisdiction for an injunction or other process against any person to restrain or prevent violations of this ordinance.

SECTION 3. To the extent of any conflict between the provisions of this Ordinance, and any other Ordinance, Resolution, or Agreement of the City of Venice, Florida, the provisions of this Ordinance shall prevail.

SECTION 4. Severability. If for any reason a provision of this Ordinance or the application thereof to any person, group of persons, or circumstances is held invalid, the invalidity shall not effect other provisions or applications of the Ordinance which can be given effect without the invalid provision or application, and to this end the provisions of the Ordinance are severable.

SECTION 5. Effective Date. This Ordinance shall take effect immediately upon its adoption, as required by law.
PASSED BY THE COUNCIL OF THE CITY OF VENICE, FLORIDA, THIS 26TH DAY OF MARCH, 1996.

First Reading: March 12, 1996 - Final Reading: March 26, 1996 - ADOPTION: March 26, 1996

ATTEST: /s/LORI STELZER, CMC, CITY CLERK

/S/ MERLE L. GRASER, MAYOR

I, LORI STELZER, City Clerk of the City of Venice, Florida, a municipal corporation in Sarasota County, Florida, do hereby certify that the foregoing is a full and complete, true and correct copy of an Ordinance duly adopted by the Venice City Council, at a meeting thereof duly convened and held on the 26th day of March, 1996, a quorum being present.

WITNESS my hand and the official seal of said City this 27th day of March, 1996.

/S/ LORI STELZER, CMC, CITY CLERK Approved as to form: /S/ ROBERT C. ANDERSON, CITY ATTORNEY.

DRUG FREE WORKPLACE CERTIFICATION

If identical tie bids exist, preference will be given to the vendor who submits a certification with their bid/proposal certifying they have a drug-free workplace in accordance with Section 287.087, Florida Statutes. The drug-free workplace preference is applied as follows:

IDENTICAL TIE BIDS: Preference shall be given to businesses with drug-free workplace programs. Whenever two or more bids, which are equal with respect to price, quality, and service, are received by the State of by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program.

As the person authorized to sign this statement, I certify that this firm complies fully with the following requirements:

- 1) This firm publishes a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.
- 2) This firm informs employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
- 3) This firm gives each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
- 4) In the statement specified in subsection (1), this firm notifies the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.
- 5) This firm imposes a sanction on or requires the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.
- 6) This firm will continue to make a good faith effort to maintain a drug-free workplace through implementation of this section.

NO BID RESPONSE

IMPORTANT: If you choose not to submit a bid for the attached "Invitation To Bid," please complete and return this form only on/before bid closing date. Failure to respond will result in your company being negatively registered as non-responsive. In the event five (5) "no responses" are posted, you will be automatically dropped from our mailing list for future solicitations for the described product/service.

Thank you for taking this opportunity to help us update and improve the solicitation process.

Bid Open/Close Date: **August 26, 2015 at 2:00 PM**

Bid Number: **3010-15**

Description: **Border Road Water Main Extension Re-bid**

Contact: Jon Mayes, Procurement- Finance Dept.

Please check the appropriate response. We respectfully submit "No bid" for the following reason(s):

- 1. We are unable to meet the required delivery date
- 2. We cannot provide a product to meet the required specifications.
- 3. We no longer provide the requested product.
- 4. We do not represent the required brand name product.
- 5. The bid closing date does not allow adequate time to prepare a response.
- 6. The specifications are too restrictive.
- 7. We have chosen not to do business with the City
- 8. Other (feel free to provide our response on your company letterhead.)

Border Road Water Main Extension

I Contractor Qualification (Section 1.07, 5a) Provide 2 Examples of Each

Trenchless installation of underground piping using horizontal directional drilling methods of minimum twelve inch (12") diameter FPVC potable water pressure pipe. Twelve hundred (1,200) linear feet (LF) or greater.

Project Example 1

Contractor/SubContractor Performing Work: Bore Hawg Inc.
Project Name: CR 25A to Marco Terrace
Owner/Client: City of Lake City
Owner/Client Project Manager and Number: JR, 386-288-9898
Construction Date: June July 2015
Project Description including details related to the qualifications: Installation of 12" FPVC by HDD
3 Bores totaling 1950 ft

Project Example 2

Contractor/SubContractor Performing Work: Bore Hawg Inc.
Project Name: East West Connector from Harden Blvd. to S. Lincoln Ave.
Owner/Client: City of Lakeland
Owner/Client Project Manager and Number: Kimmins Contracting Group - John Zemina, 813-805-8647
Construction Date: October - December 2010
Project Description including details related to the qualifications: Installation of 3,649 ft. of 20" FPVC by HDD
Copy of UGSI article on installation attached

II Contractor Qualification (Section 1.07, 5b) Provide 2 Examples of Each

Construction of underground potable water pressure pipe systems of minimum twelve inch (12") diameter PVC (Polyvinyl Chloride) pipe. Three thousand (3,000) linear feet (LF) or greater.

Project Example 1

Contractor/SubContractor Performing Work: Quality Enterprises USA, Inc.
Project Name: Reconstruction of South Collier Boulevard
Owner/Client: City of Marco Island
Owner/Client Project Manager and Number: Mike Daniel, 239-825-9554
Construction Date: April 2005 - June 2006
Project Description including details related to the qualifications: Reconstruction of 2 miles of roadway which included
the installation of 10,000 LF of 20" PVC watermain

Project Example 2

Contractor/SubContractor Performing Work: Quality Enterprises USA, Inc.
Project Name: Reconstruction of North Collier Boulevard
Owner/Client: City of Marco Island
Owner/Client Project Manager and Number: Mike Daniel, 239-825-9554
Construction Date: April 2007 - December 2009
Project Description including details related to the qualifications: Reconstruction of 3.5 miles of roadway including
15,000 LF of 20" PVC watermain

underground
SOLUTIONS®

www.undergroundolutions.com

City of Lakeland, Florida Extends Services Using Fusible PVC™ Pipe

The City of Lakeland, FL provides water, sewer, and electric service to customers over a 90-square mile area in Polk County and has produced water since 1905. The City currently serves 52,064 water customers and 43,079 wastewater customers. Fusible PVC™ pipe has been integrated into the City's design standards – covering 990 miles of water mains and 50 miles of force mains – by Wayne Bryan, P.E., for directional drilling, jack & bore, and open trench applications because of the savings provided and the compatibility with other system materials. The strength of Fusible PVC™ pipe allows the engineering department to design longer directional drills without being subject to oxidative degradation as a result of contact with water disinfectants. The maintenance department can perform repairs or modifications to Fusible PVC™ pipe using its own warehouse supplies and personnel. The City also appreciates the ability of Fusible PVC™ to prevent possible hydrocarbon permeation from affecting the City's water quality.

The East-West Connector Design Build project recently completed included directional drilling of 3,700 LF of 20" DR25 force main using Fusible PVC™ pipe along Edgewood Avenue. Kimmins Contracting subcontracted with **Bore Hawg Directional Drilling** to install the pipe, with UGSI providing the fusion service. Part of the project had to be directionally drilled in an embankment along a drainage canal, creating a very tight corridor. According to Dario Munoz, Project Manager, Kimmins found the UGSI fusion service to be extremely efficient while working in a congested area and, combined with the on-site construction support for layout, made the project progress very smoothly.

Another project found Garney Construction crossing Florida Ave with a jack & bore, requiring 30" DR25 Fusible PVC™ pipe to be pulled into a 36" steel casing. UGSI fusion service was performed in the same launching area used for insertion of the casing. Billy Newton commented how much he appreciated the technical assistance provided by UGSI to make the project move very quickly in a heavily traveled area.

Killebrew Construction also used 30" DR25 Fusible PVC™ pipe for a force main jack & bore to complete two projects. Ian Lund, Project Manager with Killebrew, has used Fusible PVC™ pipe on several other projects - providing savings on pipe drill diameter and ease of fittings installation – making them more competitive at bid time.

Finally, K&R Construction recently used 8" DR18 Fusible PVC™ pipe for a force main relocation along County Road 37-B. Bob Beland, Project Manager with K&R, found working with UGSI left him completely confident about using Fusible PVC™ pipe on future projects.

Underground Solutions (UGSI) provides infrastructure technologies for water/wastewater applications. UGSI's Fusible PVC™ products, including Fusible C-900®, Fusible C-905® and FPVC®, contain a patented PVC formulation that, when combined with UGSI's patented fusion process, results in a monolithic, fully-restrained, gasket-free, leak-free piping system. UGSI's Duraliner™ is a patented, close-fit pipeline renewal system creating a stand-alone structural liner.

ADDENDUM NO. 1

Date: August 11, 2015

To: All Prospective Proposers

Re: ITB# 3010-15: Border Road Water Main Extension Re-bid

This addendum sets forth changes and/or information as referenced and is hereby made part of and should be attached to the subject Contract Documents. Receipt of this Addendum shall be acknowledged below and in the submitted proposal. It shall be the responsibility of each proposer, prior to submitting a proposal, to contact the City of Venice- Purchasing Department to determine if addenda were issued and to make such addenda a part of their proposal.

The following is to clarify and provide additional information requested and questions submitted during the pre-bid meeting held August 6, 2015 at 2:00 P.M and questions submitted to date.

Summary:

- 1. Jon Mayes, Procurement Department, started the meeting by reviewing the next important dates. Proposals are due August 26, 2015 at 2:00 PM, City Hall, Room #204. The actual bid opening will occur in City Hall, Room #114 shortly thereafter. Last questions and follow-up answers is August 17th by 1:00 PM. Mr. Mayes stated from the meeting date forward, he was the only contact source for additional questions.**
- 2. Mr. Mayes also pointed out key sections of the bid for contractors to review. Starting on page 3 are the "General Conditions and Instructions to Offerors" and page 12- "Insurance Information". Page 15, starts the "Special Conditions" section which includes "stipulated damages" of \$1,532.00 per day beyond the construction time limit. Page 74, Section 1.04, item 1, also points out substantial completion within 150 days from the issuance of the "Notice to Proceed". The final completion shall be 180 calendar days, from the "Notice to Proceed".**

3. Mr. Mayes also stated that a 5% bid bond is required for this project. And the awarded contractor will be required to provide a Performance and Payment Bond equal to 100% of the contract amount.
4. Please review page 17- "Required Forms List" (also attached at end of this addendum). Required forms start on page 18 thru page 42 including the "bid form" that must also be submitted with each contractor's proposal. Page 17 can be used as a "check off" sheet for these forms and mark a form "N/A" and return it, even if such form may not pertain to the contractor. As per bid documents, contractors shall submit four sets of their proposal with at least one set bearing original signatures.
5. Stephen MacEachern, of Stantec, reviewed the scope of work. "The installation of approximately 3,730 linear feet of 12-inch PVC water main by open cut, approximately 2,280 linear feet of 12-inch fusible PVC water main by horizontal directional drill, and approximately 55 linear feet of 12-inch PVC carrier pipe in a 24-inch steel casing by jack and bore."
Mr. MacEachern stated that this project will take place within three different jurisdictions: the City of Venice, Sarasota County, and FDOT with the I-75 area. Mr. MacEachern also stated that there are some wetlands adjacent to the new water main; horizontal directional drills are proposed in these areas and no special permits should be required. The Contractor will need to be familiar with the different permit requirements and jurisdictional regulations for performing work in the different rights-of-way (City of Venice, Sarasota County, and FDOT).
6. One contractor asked of the current "right of way" permit for this project and the expiration date of December of 2015 and of this will be extended. **Response: The Owner and Engineer will coordinate with FDOT to extend the permit duration.**
7. Another contractor stated that on the bid form, item #7 shows 1221 square yards of concrete needed for the sidewalk restoration phase and if amount is correct. **Response: The correct value for Bid Item No. 7 "Sidewalk Restoration" is 1,300 SY. The portion of sidewalk within the driveway limits is included in the "Driveway Restoration" bid item. An updated Bid Form is attached.**
8. One contractor asked of the availability of "as built" plans for the work area. **Response: The Contractor will be responsible to collect any available as-builts available through each of the three (3) separate jurisdictions within the project area along with any available records from the private utilities with existing facilities within the project area.**
9. Another contractor asked of bid page 339, sheet 23, item 8 and the statement of "directional boring must be completed between the hours of 8:00 A.M. and 3:00 P.M." and the possibility of longer time duration due to pipe "pull back". And if FDOT will reimburse for any overtime pay if work runs over. **Response: The work associated with the directional drill under Interstate 75 may continue after 3:00 P.M. if necessary. DBI Services will be performing inspection services for FDOT; the DBI Services Inspectors will not be charging overtime expenses to the Contractor.**

10. One contractor asked of the utility pole replacement and who pays for these- the contractor or the City. **Response: Mr. MacEachern stated that the Contractor will need to coordinate with the appropriate private utility company regarding the holding of any utility poles necessary to install the water main. The Contractor will be responsible for paying any fees charged by the utility companies for their service.**
11. Another contractor asked if the City will waive the costs of any permits required for this project. **Response: The City will waive the fee for any City of Venice permits necessary for this project. The Contractor will be responsible for any additional permits and fees required from other municipalities and regulatory agencies.**
12. One contractor asked for the pipe installation during the "open-trench" phase had to be a "dry install". **Response: The trench is to be dry for the pipe installation, backfilling, and compaction. If dewatering is necessary, the Contractor will be required to obtain a Dewatering Permit and pay any associated fees.**
13. Another contractor asked of the work involving the "wet lands" area. **Response: Mr. MacEachern stated that there are some wetlands adjacent to the new water main and that horizontal directional drilling is to occur in these areas to avoid impact to these areas. The wetland limits are labeled and hatched out on the construction plans.**

The Contractor shall prepare and submit a Frac-Out plan to the Owner for review and comment. An example "Frac-Out Plan" was not included in the Appendix, please see that attached plan titled "Frac-Out Contingency Plan for Horizontal Directional Drilling" for reference.

14. One contract asked if there a cost estimate available for the rebid. **Response: Engineer's estimation is approximately \$805,000.00.**
15. Another contractor asked of the telephone line on the northside of Border Road and if these lines were installed open or within conduit. And again, the importance of obtaining the "as built" that should show these areas. **Response: See response to question 8.**

The following were questions were either e-mailed or submitted after the pre-bid meeting:

16. "Will you accept Fusible HDPE with the same inside diameter as an alternate to the Fusible PVC?" **Response: No, HDPE will not be considered as an alternate. The project has been designed and permitted to be Fusible PVC.**

ADDENDUM NO. 2

Date: August 19, 2015

To: All Prospective Proposers

Re: ITB# 3010-15: Border Road Water Main Extension Re-bid

This addendum sets forth changes and/or information as referenced and is hereby made part of and should be attached to the subject Contract Documents. Receipt of this Addendum shall be acknowledged below and in the submitted proposal. It shall be the responsibility of each proposer, prior to submitting a proposal, to contact the City of Venice- Purchasing Department to determine if addenda were issued and to make such addenda a part of their proposal.

The following is to clarify and provide additional information requested and questions submitted.

1. "Will the City accept/allow Certa-Lok, Restrained Joint C-900/C-905 PVC Pipe as an "equal to" Fusable pipe? Certa-Lok is C-900 O.D. and does not require any fusion or stringing out pipe for pull". **Response: Technical Specifications Section 02616, Part 2.02 identifies the requirements for the pipe to be used for Directional Drilling. The main to be installed in FDOT right-of-way under I-75 is required to be a fused jointless pipe per FDOT permit requirements. The direction drill has been designed and permitted to be Fusible PVC.**
2. "Note 2 on Sheet 4 of the construction drawings states "6" tee to be cut in." The plans show to cut in a 10" tee. Please verify which is correct. What type of pipe is the existing 10" water main?" **Response: The existing pipe being connected to is a 10" PVC water main. A 10" PVC tee is required.**
3. "Is the replacement of the 18" RCP and two mitered end sections shown on Sheet 19 to be included in Bid Item 1b?" **Response: Yes, the cost of replacing the existing 18" RCP storm pipe and the two (2) mitered end sections are to be included in the Bid Item 1 per linear foot of pipe. The materials and installation of the 18" RCP storm pipe and mitered end sections are to meet or exceed FDOT standards and details.**

4. "Note 4 on Detail 15 (Sheet 23) states that "Air release valves shall be installed on the upstream side of the bore", but there are no air release valves shown on the plans. Please verify if air release valves are required. Note 7 of this same detail specifies that "Isolation valves shall be installed on both side of directional bore." But some bores only have a valve on one side. Please clarify." **Response: It is anticipated that air release valves will not be required for this project. The vertical alignment of the proposed water main has been designed such that fire hydrants are located at high points in the system and will act as manual air release.**
5. "On Sheet 25 of the drawings included in the FDEP permit there is Detail 23 – 4'x8' Construction Project Sign Detail. This detail is not on the drawings that were on DemandStar. Is this sign required?" **Response: There is NO Construction Project Sign required for this project.**
6. "According to the geotechnical reports it appears the material that will be encountered at the soil boring locations will provide suitable backfill. In the event unsuitable materials are encountered in other areas how will the removal and disposal of the unsuitable material be paid?" **Response: It is the Contractors responsibility to backfill the pipe with suitable materials per Section 02230, Part 2.04A. Any backfill material encountered that is determined to be unsuitable shall be removed and replaced with suitable material by the Contractor at no additional cost to the Owner. If there are any questions as to the suitability of the material, the Contractor shall have the material tested by their testing lab to determine the suitability of the material at no additional cost to the Owner. The cost will be included in the unit cost price for the open trench installation of pipe.**
