Subject: Harner and Crow's Nest

Please forward to the Zoning Board

I have already written you concerning the rezoning of the Crow's Nest and was disappointed when you failed to pay attention to the neighborhood's wishes.

He is using a classic negotiation technique. For him to "suddenly" the next day claim he "didn't know what I was doing" is ridiculous. He knew exactly what he was doing. Mr. Harner is an astute and successful businessman, and no one in Venice is naive enough to believe this tale.

His business will not be adversely affected, even though the neighborhood might.

We implore you to not be a part of this charade and stand firm. Mr. Harner accepted the conditions.....He agreed and now is attempting to back out. He is no fool and thinks he can get just what he wants with a second hearing and a self deprecating tale. Hold him to his word as he knew what he was doing...shame on him! He agreed.

Mrs. GH Doerfert
