

Pot and Basket Costs

Downtown Beautification Project

Baskets

We want to buy new baskets to go on the new poles. There are planned 41 new flower poles each holding 2 baskets. Thus we will need 84 baskets. (Currently we have 41) We want the new ones to match while replacing the old ones, some 7 years old. We will use 20 of the existing baskets for replacements and poles not in the new grid.

82 Baskets @\$50.00 each 4,100

Pots

It impossible to guess perfectly how many new ones are needed however from the plans and what we already have it appears we will need 20 additional pots- going from 21 to 41.

20 Pots at \$200 each 4,000

I have raised money to buy half of these -2,000

Total 2,000

Materials

VABI raises money for all replacement material flowers, fertilizer and dirt including some addl. pots. There will be many in ground plantings added since we removed or destroyed lots for this project. VABI will cover those costs like we always do.

Total Pots and Baskets 6,000
