Re: Adopted City of Venice Capital Improvement Schedule (CIS)

Dear MPO Board Members and Executive Director:

The purpose of this correspondence is to inform the Sarasota/Manatee MPO Board members and Executive Director about the Venice City Council's recent update and adoption of the Capital Improvement Schedule (CIS). Specifically, I would like to inform the Board and Director of the City's list of prioritized transportation/road projects that were included in this overall CIS adoption (see attached CIS Table). As you know, the CIS is part of the City's Comprehensive Plan and strives to identify needed improvements to maintain adopted Level of Service for public facilities including roads within the City of Venice. Further, as you will note, County and State owned and maintained facilities are included in this listing. The City Council has adopted this list of transportation/road projects as part of the overall CIS. The intent is to identify and provide clarity of the City's desired priorities as you identify projects and funding sources for those projects within the City of Venice.

On behalf of the Venice City Council, I would like to thank the MPO Board and their staff for your continued collaboration and support of our community and the residents we serve.

Sincerely,

Nick Pachota, Mayor
City of Venice

cc: James Clinch, Venice City Manager
