

MEMORANDUM

FROM: Harry Klinkhamer, Historical Resources Manager
DEPT: Planning & Zoning
TO: Historic and Architectural Preservation Board
DATE: April 29, 2026

SUBJECT: Edgewood and Seaboard Sections Historic Structures Survey Results

In December 2025, the City of Venice hired Chronicle Heritage to conduct a historic resources survey of the Edgewood and Seaboard Sections of Venice. Work on this project was funded with grant #26.h.sm.200.011 from the State of Florida, Division of Historical Resources. The purpose was to update or create new Florida Master Site Files for resources in those sections as well as to capture those historical resources that went beyond the John Nolen Era (1926-1929). Surveying was limited to structures built in 1960 or prior.

This opportunity is to comment on the draft report. Chronicle Heritage will present their findings at the June HAPB meeting.
