Subject: July 12 , 2016 Council Agenda Item

Under New Business:

Our public parks in Venice and our city hall building landscape needs more support on required maintenance of landscape and parks buildings.

Venice can use the Sarasota County Adoption program to facilitate groups, citizens, and businesses to Adopt a facility.

The city lacks human and financial resources to maintain these facilities to the level for our citizens and city guests expect.

MOTION: I proposed to direct staff and our parks advisory board to work together to find qualified groups or residents to adopt our parks or city hall.

100% adoption expected to be complete in 2017.

Councilman Bob Daniels
