**Subject:** Fire engine

Ed,

We received a bit of criticism for delaying our purchase of a new engine for VFD at the joint BCC meeting. As you know, our thoughts were to wait until we had or rejected merger with the county. We thought that the engine might be different in the event of a merger.

I am requesting that VFD place on the next agenda a proposal to purchase an engine to their specs so that Council can make or reject the expenditure.

Thanks,

John
