RE: Cottages of Venice (**APPROVAL REISSUED**)
Final Certification-Permit #: 0124807-225-DSGP
PWS: City of Venice Utilities (6581901)

Dear Mr. Miller:

This acknowledges receipt of a certified request received by Department of Health for a final letter of release for installed potable water mains and associated appurtenances per certified record drawings as part of Cottages of Venice in City of Venice Utilities service area.

Your engineer of record has certified that the subject facilities have been completed in accordance with the approved plans and specifications. These facilities were cleared bacteriologically in accordance with Rule 62-555.345 Florida Administrative Code. Bacteriological samples collected on 3/20/24 and 3/21/24 and pressure testing results provided under separate submittal are acceptable and meet DOH and DEP requirements. There are no deviations from permitted plans.

Changes in applicable laws and regulations with affect to operating procedures and/or quality standards must be complied with. In addition, we wish to call your attention to the requirements that no sanitary hazards, regardless of how slight, shall be placed within 100 feet of public water supply well and under certain circumstances, this distance can be increased.

Based on this information, we are issuing this revised approval letter of release to place into service the installed public water system components to provide potable water and fire protection service for Cottages of Venice distribution service portion. Please contact me at 941-228-7344 if you have additional questions.

Sincerely,

Paul B. Penumudi, P.E.
