

## Unique Neighborhood Strategies

### Land Use:

#### Strategy LU-IS 1.1.1 - Redevelopment

The City recognizes this Neighborhood is primarily developed with minimal opportunities for new development. The City supports the redevelopment of underutilized properties to encourage a diversity of non-residential uses capable of supporting the adjacent residential areas. In support of this Strategy, the City shall utilize the land development regulations to require that redevelopment projects are consistent with the historical character of those portions of the Island Neighborhood specifically regarding:

- A. Historic grid street patterns established by the Nolen Plan
- B. Building massing, form, layout, and setbacks

#### Strategy LU-IS 1.1.2 - Mixed Use Downtown (MUD)

The MUD within the Island Neighborhood comprises 84 acres generally including the historic downtown and a portion of Business 41 (see mixed-use descriptions in the Future Land Use Element). The following shall apply for the MUD designation:

- A. The minimum residential density is 9.1 dwelling units (DUs) per gross acre; the maximum residential density is 18.0 dwelling units (DUs) per gross acre. The range of dwelling units permitted in the MUD is:

- C. Development and redevelopment may incorporate a vertical mix of uses within the implementing VA zoning district, typically locating higher activity uses such as retail, restaurant, or similar uses on the ground floor, and lower activity uses such as professional offices, residential, or similar uses above the ground floor.
- D. Development and redevelopment for those properties within the MUD but not zoned VA may be either a vertical or horizontal mix of uses.

#### Strategy LU-IS 1.1.3 - Mixed Use Corridor (MUC)

The MUC within the Island Neighborhood comprises approximately 179 acres (130 acres excluding the Areas of Unique Consideration) generally including Business 41 and Airport Avenue (see mixed use descriptions in the Future Land Use Element). The following shall apply for the MUC designation within the Island Neighborhood. For the calculations below and based on the previously adopted level of entitlements, the areas of unique consideration within the MUC (see Strategy LU-IS 1.1.6) are not included in the total

The MUA recognizes the Venice Municipal Airport, Airport Master Plan and its proposed uses. The following shall apply when within the MUA designation:

- A. The maximum non-residential intensity for the overall area is calculated based on a FAR of 0.35 (designation-wide); 1.0 (for individual sites). The range of square footage permitted in the MUA is:

	Number of Acres	Area Wide FAR	Minimum Development %	Maximum Development %	Minimum Square Feet	Maximum Square Feet	Existing and Entitled as of 11/1/2223	Remaining as of 11/1/2223
<b>MUA</b>	127	0.35	NA	NA	<b>NA</b>	<b>1,936,242</b>	104,887	1,831,355

- B. Within the MUA designation, development and redevelopment shall be limited to those uses designated and defined within the Airport Master Plan as may be amended, including aeronautical, aeronautical support services, non-retail commercial, office, and limited light industrial; residential uses shall not be permitted.
- C. Uses within the MUA are subject to the adopted Airport Master Plan, Chapter 333, F.S., and the implementing Airport Zoning and Land Use Compatibility Standards.
