The city council approved the Bell Tower for Epiphany Cathedral which is not going to be an asset to the congregation of the church. There is already a bell on top of the church. Please look into this matter. A higher roof, Bell Tower and construction of an addition to the church are totally unnecessary modifications. The bell tower is a duplication because we already have a bell, we are already very limited on parking and now they want to do construction so we lose parking. Venice is a small island and there is no room for a bell tower and fewer parking spaces.
