**Subject:** L-HH lot

Bob,

When we spoke the other night at the VABI dinner, you mentioned that the city is considering using the remainder of the property on the Lord-Higel site for parking and that would benefit the L-HH visitors. This is true but I was going to bring a request to council regarding a portion of the remaining open site. I am asking for the council to consider allowing the L-HH to use the second lot in from Avenue Des Parques as a buffer zone for the L-HH and any future development. This is the east side of the house, which will not only have the 12' wrap-around porch extending into the now vacant lawn space, but the ADA ramp will run next to it as a way to get onto the porch and subsequently, entry into the house. This second lot contains a large tree area and would allow for a landscaped garden designed with plants from the 1896 era. We had envisioned this from the start and have a donor waiting in the wings. I ask that you start the process, thru proper channels, to get this request for discussion before the council.

Thank you,

Jack Bauer, L-HH volunteer coordinator
