

# Grants Update

Brenda Westlake, Grants Coordinator  
Finance Department

# Grant Process / Team Effort

- Federal/State/Foundation/Local Grants

# Planning

- What is the **scope** of your project you are seeking funding for? Details, Details and more Details
- When do you **need** the funding? Schedule (CIP, Budget, Project Schedule) Getting grant funds could be 2+ years out.
- What is the benefit/goals/**need**?
- Is it **measurable**?
- **Capabilities** of Recipients and Subrecipients. (Merit/Risk)
- *Example of Planning: EPA has discussed "Asset Management Plan" for more than 15+ years and both Federal/State agencies are now working on making it a standard requirement to obtain funds for both Grants & Loans. – Planning is Important.*

# Audit – Why is it so important?

If the City receives Federal/State Funding there is a project specific audit that is conducted as part of the overall City's Annual Audit.

- High Risk/Low Risk
- High Risk determination will require the City to remain High Risk for two (2) years.
- High Risk determination effects all departments receiving Federal and State funds, not just the department where the project was determined high risk.
- What happens if you are High Risk? May jeopardize future Federal and State funding received or additional forms and monthly monitoring may be required.

TEAM EFFORT

# Roles

WORK IN PROGRESS

## Project Manger

- Project Planning
- Application – Documentation/Approval
- Procurement-Contracting
- Day-to-Day Project Management
- Funding Requirements– Disbursements/Status Reports/Buy American/Davis-Bacon
- Project Closeout
