  3. The variance is not based on any conditions, including financial, occupational, or ability, which are personal to the applicant as applied to the property involved in the application;
  4. The alleged hardship has not been created by any person presently having an interest in the property or, if it was, it was created as a result of a bona fide error;
  5. The granting of the variance will not be detrimental to the public welfare or injurious to other property or improvements in the vicinity;
  6. The variance granted is the minimum variance that will make possible the reasonable use of the property; and
  7. The property cannot be put to a reasonable use which complies fully with the requirements of the Code unless the variance is granted.
