

# Memorandum

To: Edward Lavalley, City Manager

From: John Veneziano, Public Works Director

Date: January 29, 2016

Subject: Resolution – Solid Waste & Recycling Rate Stakeholder’s Work Group

**Background:**

The results of a Solid Waste and Recycling rate study were presented to the City Council, on January 12, 2016. One recommendation during that presentation was to create a group of citizens to review the information used in and conclusions of the study. The work group will review the solid waste and recycling services provided by the city, the future growth and needs of the city for providing those services and the rates charged for those services. It is expected that the work group will make a recommendation to the City Council regarding the services to be provided and changes to the rates necessary to provide services and maintain the required fund balances.

**Requested Action:**

Adopt a resolution creating a Solid Waste and Recycling Rate Stakeholder’s Work Group.
