Each participant will receive from 8-10 timed runs on a course with automated timing and safety stations maned by trained individuals equipped with 2 way radios, fire extinguishers, and other appropriate devices to facilitate the safest possible event. Setup begins at 7am followed by a tech inspection of all vehicles participating, a guided course walk and drivers meeting covering all procedures and nuances of the venue. Morning runs ensue prior to a lunch break followed by afternoon runs. Awards are given at the conclusion for timed runs, and course breakdown begins.
