Hello- We live 2 blocks from the Church seeking a height exception. That location is nothing like the “edge” district area of the theatre. That is 41! This church is embedded in a neighborhood whose residents and visitors deserve continued quiet enjoyment of their home and neighborhood environment.

Issues such as this are the reason voters and residents supported Save Downtown Venice. Please do the right thing and deny this height exception- this opens the door all over again! What a way to start 2024- same issue being pushed on us- different year and requester... this is not an edge area per se- I trust that you listen to the people and deny this height exception.

Sincerely, Tina Marrelli
