
Sec. 74-48. Authority to restrict use of water from city system and private wells.

The utility director shall have the right, only with the approval of the city council, to restrict the use of water within the city, including water from private wells and all water from the city water system, for sprinkling, wetting, irrigating or construction purposes to such hours and for such time as the director deems advisable for the best interest of all concerned; provided, however, that first a notice thereof shall be published in a newspaper in the city.

(Code 1982, § 19-21)
