

# 23-57CP – City-Initiated Comprehensive Plan Text Amendment for City’s Water Supply Plan Staff Report

## I. PROJECT DESCRIPTION

The City is required to submit a Water Supply Plan (WSP) to the Southwest Florida Water Management District (SWFWMD) every 5 years or within 18 months of publication of the Regional Water Supply Plan. The WSP must be incorporated into the City’s Comprehensive Plan, at a minimum by reference, including an update to any affected elements and corresponding policies within the Comprehensive Plan.

The City Utility Department has completed the required 10-year Water Supply Work Plan and is requesting it be incorporated into the City’s 2017-2027 Comprehensive Plan by reference and include the plan in the associated Data, Inventory and Analysis (DIA). The updated WSP resulted in a limited comprehensive plan text amendment to the Open Space and Infrastructure Elements.

**List of Changes**

Element	Change	Effect
<b>Open Space</b>	Addition of new date.	Update to date
<b>Infrastructure</b>	Addition of new date.	Update to date

**II. CONCLUSION**

The revisions in 23-57CP come forward as a result of the statutorily required update to the City’s WSP.

**Planning Commission Report and Recommendation**

Upon review of the petitions and associated documents, Comprehensive Plan, Land Development Code, staff report and analysis, and testimony provided during the public hearing, there is sufficient information on the record to make a recommendation on Text Amendment petition no. 23-57CP.
