Failing resolution, and prior to the commencement of depositions in any litigation between the parties arising out of this Agreement, the parties shall attempt to resolve the dispute through Mediation before an agreed-upon Circuit Court Mediator certified by the State of Florida. The mediation shall be attended by representatives of Firm with full decision-making authority and by City's staff person who would make the presentation of any settlement reached at mediation to City's Council for approval. Should either party fail to submit to mediation as required hereunder, the other party may obtain a court order requiring mediation under section 44.102, Florida Statute.

24. **VENUE.** Any suit or action brought by either party to this Agreement against the other party relating to or arising out of this Agreement must be brought in the appropriate federal or state courts in Sarasota County, Florida, which courts have sole and exclusive jurisdiction on all such matters.
25. **CONTRACT STAFFING:** The Firm's personnel and management to be utilized for this contract shall be knowledgeable in their areas of expertise. The City reserves the right to perform investigations as may be deemed necessary to ensure that competent persons will be utilized in the performance of the contract. The Firm shall assign as many people as necessary to complete the required services on a timely basis, and each person assigned shall be available for an amount of time adequate to meet the required service delivery dates.
26. **PROTECTION OF PROPERTY:** The Firm shall ensure that the service is performed in such manner as to not damage any property. At the completion of the project, Firm shall remove all debris, rubbish and waste materials from and about the Project site, as well as all tools, appliances, construction equipment and machinery and surplus materials, and shall leave the project site clean and ready for occupancy by the City.
28. **CONFIDENTIAL AND PROPRIETARY INFORMATION**
 - A. Proprietary Information. City acknowledges that in order to perform the services called for in this contract, it shall be necessary for Firm to disclose to the customer certain Proprietary Information that has been developed by Firm at great expense and that has required considerable effort of skilled professionals. City further acknowledges that the programs will of necessity incorporate such Proprietary Information. City agrees that it shall not disclose, transfer, use, copy, or allow

access to any such Proprietary Information to any employees or to any third parties, excepting those who have a need to know such Proprietary Information in order to give effect to the City's rights hereunder and who have bound themselves, in writing, to respect and protect the confidentiality of all such Proprietary Information. In no event shall the customer disclose any such Proprietary Information to any competitors of Firm.

- B. Notwithstanding, anything to the contrary in any other section of this Contract, Firm hereby acknowledges that the City is subject by law to certain information and document disclosure and copying requirements that may require the City to disclose information or copies of documents relating to or forming part of the program(s) trade secret or copyright protection. Accordingly, prior to disclosing such information or reproducing such documents to a third party, the City shall seek the Firm's written consent to each such disclosure or reproduction and the Firm agrees not to unreasonably withhold such consent. Neither City nor Firm has any obligation to disclose any Trade Secret. "Trade Secret" as defined in Section 812.081, Florida Statutes, are exempt from "Public Records Law" disclosure by application of Section 119.08(3)(o), Florida Statutes. City shall not intentionally disclose any of the subject trade secrets. In the event that customer is unsure whether an item is a trade secret, City shall rely on Firm's assertion that the item is a trade secret and shall in reliance thereon treat the item as a trade secret vis-a-vis Chapter 119, Florida Statutes. In any case where the Firm expressly consents to specific disclosure of information or reproduction of documents relating to or forming part of the program(s), the Firm hereby waives for each specific disclosure or reproduction any claim against the City for violation of trade secret or copyright laws or violation of any term of this Contract for such a release of information or copies of documents. In any case where the Firm refuses to consent to disclosure or reproduction and the City is as a result thereafter made a party to a suit arising under Chapter 119, Fla. Stat (i.e., the "Florida Public Records Law"), the Firm agrees to intervene in such suit with counsel and at the Firm's expense and to present evidence to establish that the information or documents the Firm has requested the City to withhold under the terms of this Contract are in fact exempt from disclosure under the Florida Public Records Law pursuant to Section 119.07(3)(o). Should the court in such a suit determine that the information or documents in question must be disclosed or reproduced pursuant to the Florida Public Records Law, the Firm shall have no claim against the City for violation of this Contract or trade secret or copyright laws or otherwise. However, to the extent the Firm did not unreasonably withhold its consent to disclosure or reproduction in the first place, the Firm also shall have no obligation to pay any attorneys' fees or costs assessed against the City as a result of the nondisclosure or non-reproduction of the information or documents.

29. **SUBSTITUTE PERFORMANCE**: In the event the Firm fails to perform any required service within the time schedule under the contract, the City reserves the right to obtain substitute performance. Further, the City reserves the right to deduct the cost of such substitute performance from the Firm's payments. The Firm may be

exempt from this provision if such exemption is granted by the Contract Manager or his designee, in writing, prior to any delays or as a result of an Act of Nature.

30. **WARRANTIES:** Firm expressly warrants that the goods, materials and/or equipment covered by this Agreement will conform to the requirements as specified, and will be of satisfactory material and quality production, free from defects, and sufficient for the purpose intended. Goods shall be delivered free from any security interest or other lien, encumbrance or claim of any third party. Any services provided under this Agreement shall be provided in accordance with generally accepted professional standards for the particular service. These warranties shall survive inspection, acceptance, passage of title and payment by the City.
31. **CHANGES IN THE WORK:** City shall have the right at any time during the progress of the work to increase or decrease the work. Promptly after being notified of a change, Firm shall submit an itemized estimate of any cost or time increases or savings it foresees as a result of the change. Except in an emergency endangering life or property, or as expressly set forth herein, no addition or changes to the Work shall be made except upon written order by the City, and City shall not be liable to the Firm for any increased compensation without such written order. No officer, employee or agent of the City is authorized to direct any extra or changed work orally. Any modifications to this contract shall be in compliance with the City Purchasing Policy and Administrative Procedures in effect at the time such modifications are authorized.
32. **ORDER OF PRECEDENCE:** In the event of any conflict between or among the terms of any of the Contract Documents, the terms of the Agreement shall take precedence over the terms of all other Contract Documents.
33. **ASSIGNMENT:** Firm shall not assign this Agreement or any part thereof, without the prior consent in writing of the City. Any attempt to assign or otherwise transfer this Agreement, or any part herein, without the City's consent, shall be void. If Firm does, with approval, assign this Agreement or any part thereof, it shall require that its assignee be bound to it and to assume toward Firm all of the obligations and responsibilities that Firm has assumed toward the City.
34. **RECORDS:** Firm agrees to comply with Florida's public records law by keeping and maintaining public records that ordinarily and necessarily would be required by the public agency in order to perform the service; by providing the public with access to public records on the same terms and conditions that City would provide the records and at a cost that does not exceed the cost provided by Florida law; by ensuring that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed excepts as authorized by law; and by meeting all requirements for retaining public records and transferring, at no cost, to City all public records in possession of Firm upon termination of this contract and destroying any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements.

This contract and the contract documents constitute the entire agreement of the parties and may not be changed or modified, except by a written document signed by both parties hereto. This contract shall be binding upon the successors and assigns of the parties.

Questions and Clarifications:

RE: EASTSIDE WRF BID FORM A:

- Q. Effluent- please provide a description of the required components for "DEP primary" by referencing a list or table.
- A. See attached. Tables from required 62-550.310 (1, 3, 4 and 5) for Primary and 62.550.320 for Secondary.

RE: East Side WRF Bid Form A:

- Q. What is the WRF time frame for pick-up of weekly microbiology samples? Include days and hours.
- A. Though we are a 24/7 operations, typical pick-up hours are M-F from 7am to 3pm. For issues that require a weekend pickup, this can be handled on a case-by-case basis. Fecal samples are usually pulled at 6am and only have an 8-hour hold time on them.
- Q. Are any daily short hold time parameters, such as BOD & microbiology, scheduled for routine week-end analysis?
- A. No weekend analysis, unless a mistake occurs. Then it could be necessary to pick-up an additional sample to meet the weekly requirements. See "Eastside Testing" attachment for times samples are currently being taken.

Q. What are the component parts for "effluent monitoring well standards"?

A. See attached spread sheet called "Eastside Testing"

Q. Is TCLP a "full TCLP"? If not, selected components?

A. It is a Full TCLP with pesticides.

Q. What analyses are to (be) conducted on the leachate?

A. CBOD, TSS, Fecal coliform are conducted on the leachate sample for comparison.

RE: RO WTF Bid Form B

Q. Required DEP analysis includes "epa/ucmr sampling". Please define the required sample analyses.

A. See attachment for UCMR-4 with required analysis parameters.

*** If the results exceed 5 pCi/L, a measurement for radium-226 is required. If the results exceed 15 pCi/L, a measurement for Combined Uranium must be reported separately. The DEP/DOH will subtract the U value from the Gross Alpha (ID 4002) to determine compliance with MCL for Gross Alpha (Excl. U) of 15pCi/L. If the result for ID 4002 Gross Alpha (Including Uranium) does not exceed 15pCi/L, Combined Uranium need not be measured nor reported.

**** If using Uranium testing methods ASTM D5174 or EPA 200.8 only, then Analysis Error need not be reported.

The Fourth Unregulated Contaminant Monitoring Rule (UCMR 4)

General Information

What is the Unregulated Contaminant Monitoring Rule?

The 1996 amendments to the Safe Drinking Water Act (SDWA) require that once every five years, the U.S. Environmental Protection Agency (EPA) issue a new list of no more than 30 unregulated contaminants to be monitored by public water systems (PWSs). The Unregulated Contaminant Monitoring Rule (UCMR) provides EPA and other interested parties with scientifically valid data on the occurrence of contaminants in drinking water. This national survey is one of the primary sources of information on occurrence and levels of exposure that the Agency uses to develop regulatory decisions for contaminants in the public drinking water supply.

The "Revisions to the Unregulated Contaminant Monitoring Rule (UCMR 4) for Public Water Systems and Announcement of Public Meeting" was published in the *Federal Register* on December 20, 2016 (81 FR 92666). UCMR 4 monitoring will occur from 2018-2020 and includes monitoring for a total of 30 chemical contaminants: 10 cyanotoxins (nine cyanotoxins and one cyanotoxin group) and 20 additional contaminants (two metals, eight pesticides plus one pesticide manufacturing byproduct, three brominated haloacetic acid [HAA] disinfection byproducts groups, three alcohols, and three semivolatile organic chemicals [SVOCs]).

What contaminants are systems monitoring for under UCMR 4?

Under UCMR 4, PWSs will conduct sampling for Assessment Monitoring ("List 1") contaminants as shown in the table below. For additional information on these contaminants, please review the contaminant-specific [UCMR 4 Fact Sheets](#).

10 Cyanotoxins (Nine Cyanotoxins and One Cyanotoxin Group)

total microcystins	microcystin-LA	microcystin-RR	microcystin-LF	microcystin-YR
microcystin-LR	microcystin-LY	nodularin	cylindrospermopsin	anatoxin-a

20 Additional Contaminants

germanium	manganese	alpha-hexachlorocyclohexane	profenofos	chlorpyrifos
tebuconazole	dimethipin	total permethrin (cis- & trans-)	ethoprop	tribufos
oxyfluorfen	HAA5 ¹	HAA6Br ¹	HAA9 ¹	1-butanol
2-propen-1-ol	2-methoxyethanol	butylated hydroxyanisole	o-toluidine	quinoline

1. HAA5 (dibromoacetic acid, dichloroacetic acid, monobromoacetic acid, monochloroacetic acid, trichloroacetic acid); HAA6Br (bromochloroacetic acid, bromodichloroacetic acid, dibromoacetic acid, chlorodibromoacetic acid, monobromoacetic acid, tribromoacetic acid); HAA9 (bromochloroacetic acid, bromodichloroacetic acid, chlorodibromoacetic acid, dibromoacetic acid, dichloroacetic acid, monobromoacetic acid, monochloroacetic acid, tribromoacetic acid, and trichloroacetic acid).

Which water systems will participate in UCMR 4?

Approximately 6,000 PWSs will participate in UCMR 4. All community water systems (CWSs) and non-transient non-community water systems (NTNCWSs) serving more than 10,000 people (i.e., large systems) are required to monitor:

- All large surface water (SW) and ground water under the direct influence of surface water (GWUDI) systems will monitor for cyanotoxins and the 20 additional contaminants.
- All large ground water systems will monitor for the 20 additional contaminants.

Of the CWSs and NTCWSs serving 10,000 or fewer people (i.e., small systems):

- A nationally representative set of 800 randomly selected SW and GWUDI small systems will monitor for cyanotoxins.
- A different set of 800 randomly selected small systems will monitor for the 20 additional contaminants.

Note that any PWS that is not subject to HAA5 monitoring under the D/DBPRs (40 CFR 141.Subparts L and V) is not required to monitor for the UCMR 4 HAAs or associated indicators (total organic carbon (TOC) and bromide). Also, transient non-community water systems (TNCWSs) are not required to monitor under UCMR 4.

Where will samples be collected?

UCMR 4 samples will be collected at entry points to the distribution system (EPTDS) for all contaminant groups except for the HAAs, which will be taken in the distribution system. Sampling for the HAA indicators (TOC and bromide) will take place at a single source water influent for each treatment plant.

What does UCMR 4 participation involve?

All large systems and only small systems notified by their state or EPA, will collect samples and have them analyzed for UCMR 4 contaminants. As with previous UCMRs, large PWSs pay for their own testing. EPA pays for the analytical costs for the selected small systems.

All laboratories conducting analyses for UCMR 4 contaminants must receive [EPA UCMR approval](#) to perform those analyses.

How did EPA select the UCMR 4 contaminants?

The Contaminant Candidate List (CCL) was the primary source of priority contaminants considered for UCMR 4. The CCL is a list of contaminants that are not currently addressed by national primary drinking water regulations, are known or anticipated to occur at public water systems and may warrant regulation. The EPA selected the UCMR 4 contaminants using a stepwise prioritization process. The first step identified contaminants that were not monitored under UCMR 2 or UCMR 3; may have significant occurrence nationally; and have a completed, validated drinking water method. The next step focused on contaminants associated with one or more of the following considerations: an available health assessment to facilitate regulatory determinations; high public concern; critical health endpoints (e.g., likely or suggestive carcinogen); active use (e.g., pesticides); and/or an occurrence data gap. During the final step, EPA considered workgroup and stakeholder input; looked at cost-effectiveness of analytical methods (i.e., can a single method address multiple contaminants of interest); considered implementation factors (e.g., laboratory capacity); and further evaluated health, occurrence and persistence/mobility data to identify the list of 30 UCMR 4 contaminants.

What are the public health benefits of the UCMR program?

The UCMR program provides the EPA and other interested parties with nationally representative data on the occurrence of particular contaminants in drinking water, the number of people potentially being exposed and an estimate of the levels of that exposure. In accordance with SDWA, EPA will consider the occurrence data from UCMR 4 and other sources, along with the peer reviewed health effects assessments, to support a regulatory determination on whether to initiate the process to develop a national primary drinking water regulation.

Where can consumers find UCMR results?

CWSs are required to address their UCMR monitoring results in their annual Consumer Confidence Report (CCR) whenever unregulated contaminants are detected. CCRs are delivered to all billing customers each year by July 1. (The CCR Rule does not apply to non-community water systems). To obtain a copy of your CCR, you should contact your water supplier or you may find information for how to obtain a copy of the CCR in your water bill. Additional information about the CCR including details on reporting requirements can be found on the [CCR Homepage](#).

All PWSs are required to report their data to EPA as outlined in the UCMR. The analytical results from UCMR 4 (and previous UCMRs) are stored in the [National Contaminant Occurrence Database \(NCOD\)](#) for drinking water. For a summary of the NCOD results, tips for querying NCOD and health effects information (including reference concentrations), please refer to the UCMR 4 Data Summary document.

RE: Bid Form B

- Q. Pesticides and PCBs ~ please confirm if this requires Dioxin to be included? Assuming this is the SOCs (Synthetic Organic Contaminants list).
- R. **We do not show Dioxin on the results from the past 3 years.**

Q. Please confirm where you would like us to submit a price for the following; it is not listed on Bid Form A or B; but noted in the Section 3, Scope of Services: Bi-annual: 7) Testing for bio-assy (Whole Effluent Toxicity) on RO concentrate (compliance). Currently bid yearly separately. If certified to do this testing, submit price, but not a disqualifying event.

R. **At this point I have been requesting quotes annually for this testing. If your lab is qualified, we will be seeking prices for FY 20. If your price is competitive, I do not see why it could not be added to the bid. It was a line item in the past bid but none of the submitting labs could do this testing.**

Q. Please confirm the analyses or section where the laboratory is required to perform the sampling? Not sure, where we are supposed to enter our field services fees? This is noted in Section 3, Scope of Services.

12. The laboratory shall collect the following samples; a. RO Concentrate i. Grab samples of pH, DO, Chlorine Residual, Low MDL

ii. The remaining parameters collected via City furnished composite sampler.

b. Ambient Water (Intracoastal Waterway) testing requires samples be taken at multiple locations adjacent to City outfalls via laboratory provided vessel.

R. **The lab does weekly samples from the outfall for pH, DO, Chlorine, Low MDL. They also pull the monthly composite; they just use our compositor to do it.**

b., is all done by the laboratory, including the boat.

RE: East Side WRF Bid Form A:

Q. Effluent: Addendum 1 identifies 62-550 Tables 1,3,4 & 5 as applicable for monthly Primary analysis. Are the following parameters included in each monthly analysis submission: Table1- asbestos, Table 3- bromate & chlorite, Table 5 - 2,3,7,8 - TCCD (Dioxin)?

R. **Asbestos- No, Bromate & Chlorite- Yes, 2,3,7,8- TCCD- Yes .**
