Bike Walk Venice proposal to install a bicycle form at intersection of Venice Ave. and Harbor Dr. - Monty Andrews

Russ Johnson, Bike Walk Venice representative, provided history on Venice's declaration as a bicycle friendly community, and displayed a photo of the requested bike structure.

Discussion followed on the current signage code, and whether the structure is considered a symbol or art.

Following the motion, Mr. Hagler commented on the location of the structure and the process for approval.

A motion was made by Mr. Glanville, seconded by Ms. Dietz, that based on the presentation, the Public Art Advisory Board finds the structure as presented to be considered art and supports placement within the city. The motion carried by voice vote unanimously.
