Re: Parks Interlocal Agreement

Dear Commissioner Cutsinger:

The City of Venice is honored to be in partnership with Sarasota County for the Parks Interlocal Agreement. This intergovernmental partnership has allowed for the efficient delivery of quality parks and recreational services to both Sarasota County and City of Venice residents for over 30 years. For the past several years, City and County staff have been diligently working towards an updated framework for the future renewal of this agreement. On March 10, 2021, the City transmitted an updated Parks Interlocal framework based on the County's desire to designate "regional" and "local" park facilities (attached). This plan had been negotiated in good faith by City and County staff, however we understand that funding reservations resulted in the decision to delay the implementation of that proposal and alternatively allow the 5-year default renewal of the current agreement to occur.

The County Commission has adopted the strategic initiative in FY23 for the planning of a regional athletic complex in South County. The City of Venice is strongly in support of offering Wellfield Park as the premier location for such a facility. This 80-acre park facility operates today as a regional athletic complex, serving as the home for both adult and youth sports leagues with County wide impacts. This athletic facility is a significant community asset to South County and has supported athletics in Sarasota County for over 60 years. With the recent approval of the One-Cent-Sales-Tax referendum, the City believes this location would be widely supported as part of the County's regional athletic complex system. As part of an updated interlocal agreement, the City is committed to partnering in the redevelopment of Wellfield Park, and the renewal of the Parks Interlocal Agreement, for the overall benefit to the regional park users.

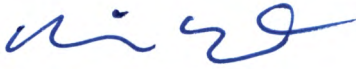

As part of the 2021 Parks Interlocal framework, the City committed to transfer the deed of ownership for Wellfield Park to Sarasota County in order to allow for the future capital investment into the property. In addition, the City would be privileged to provide financial support for this project including funding for up to 50% of a park masterplan project and up to \$2 million in Venice area Park Impact Fees to support redevelopment of the park. This project has the potential to have a significant positive impact on the South County athletic community and bring an already stellar athletic system to the next level.

Office of the Mayor

401 West Venice Avenue * Venice, Florida 34285 * www.venicegov.com

The City acknowledges the continued due diligence efforts that must be undertaken to explore all options for this future regional sports complex. We propose that the utilization of Wellfield Park is the most appropriate and economical option to achieve this important strategic initiative. The City appreciates the commitment of the County Commission to South County athletics and we look forward to collaborating further on this initiative.

Sincerely,

Nick Pachota
Mayor

OFFICE OF THE CITY MANAGER

March 10, 2021

Mr. Jonathan R. Lewis, ICMA - CM
Sarasota County Administrator
1660 Ringling Blvd.
Sarasota, FL 34236

Dear Mr. Lewis:

The City of Venice continues to work in partnership with the Sarasota County Parks, Recreation and Natural Resources Department to provide high quality park and recreational services to the users of our park facilities. The City truly appreciates and values the staff time and resources that are provided through the existing Inter-local Parks Agreement (Contract No. 2011-421). This partnership has allowed for the delivery of top-notch service and a mutual benefit to all the park users within the City of Venice.

Enclosed you will find a proposal (Attachment A) with updated terms for a new Inter-local Parks Agreement between the City of Venice and Sarasota County. This proposal framework was coordinated between City and County staff and was approved unanimously by the City of Venice Council on March 9, 2021. The goal of this proposal is to better align the agreement with the regional parks model while supporting the common objective of providing these important public services in the most economical manner. The intent is to include "regional" park facilities within the new agreement for County operation and maintenance, and to transfer the "non-regional" facilities out of the agreement. The existing Inter-Local Agreement is scheduled for an automatic 5-year renewal effective October 1, 2021, to extend the current term to October 1, 2026. Alternatively, the City would propose updating the agreement per the attached proposal, effective October 1, 2021.

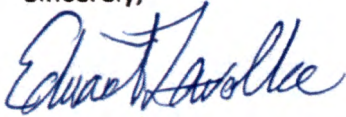

Mr. Jonathan R. Lewis
