Subject: Noise Abatement Abutting I-75

April 11, 2017
To: City of Venice Council
Regarding: Noise Abatement Abutting I-75

Please do not allow Murphy Oaks or any other development abutting Interstate 75 to proceed without addressing noise abatement.

Venice residents rely on local government to provide for the well-being of its citizens including protection from adverse environmental influences. Excessive noise creates adverse physical, physiological and psychological health effects. Elevated environmental sound levels such as highway noise can cause hearing impairment, hypertension, ischemic heart disease, annoyance and sleep disturbance. Changes in the immune system and birth defects have been also attributed to noise exposure. The Journal of Environmental Research and Development (Vol. 8 No. 4, April-June 2014) provides an excellent reference regarding health effects of noise.

The Federal Highway Administration (FHWA) encourages local governments to use their authority to regulate land development to either prohibit development of noise sensitive land uses adjacent to highways or establish requirements for developers to plan, design, and construct noise sensitive development using methods that minimize noise impacts.

Venice government has not taken the necessary steps to protect Murphy Oaks and other future residents from the considerable highway noise that 6 lane I-75 generates. This is an oversight without consequence until now. The proposed development is Venice's first RSF 2 neighborhood abutting I-75. What is done here will also set a precedent for any future I-75 abutting development. A twenty plus mile drive from Sarasota on I-75 reveals that all RSF 2 developments have solid walls to mitigate highway noise. The same can be observed south of Venice. What do these local governments and/or developers know that is not being addressed by the City of Venice and/or SSD Land Holdings?

Imagine a home where you can't enjoy conversation at a family barbeque due to noise, where a distressed child's cry is lost in the highway's din, where the roar of a heavy semi or scream of a motorcycle disrupts sleep night after night. This is not the Venice anyone desires.

Venice's Council, Planning Commission, Planning and Zoning Departments and perhaps others need to correct the oversight and put in place regulations that allow for future development while assuring the I-75 abutting neighborhoods will be both enjoyable and a healthy place to live. Failure to do so may expose Venice and its tax payers to health claim and other liabilities as the effects of excessive noise takes its toll. The argument that the highway was there at the time the new home owners purchased is a weak one at best. There is no way to really estimate how noisy the neighborhood will be without expert acoustical engineering evaluation. Experts are called upon to determine drainage, traffic, sewer and water utilization, wildlife presence etc. Now is the time to add highway noise assessment to the requirements. There are engineering firms that can do the assessment and make appropriate recommendations. There is no need to gamble with Venice citizen's well being.

Chapter 23 of the Code of Federal Regulations Part 772 (23CFR 772) entitled "Procedures for Abatement of Highway Traffic Noise and Construction Noise" contains the federal regulations for the assessment of traffic noise impacts and abatement. Chapter 335.17 of the Florida Statutes requires the use of 23 CFR 772 for traffic noise impact assessment. These regulations can be adopted as is or modified to meet our local needs.

Two Requests of the City Council

Assure implementation of noise abatement zoning regulations appropriate for future I-75 highway abutting developments prior to accepting/approving development applications and plans.

Initiate a risk assessment of Venice's liabilities due to health issues and other claims arising in future years from failure to heed Federal and State recommendations to establish requirements for developers to plan, design, and construct noise sensitive development.

Robert F. Cournoyer, Venice Resident
685 Egret Walk Lane
Venice Florida

WRITTEN CORRESPONDENCE

City of Venice
Resident Comment Card – New Public Safety Facility

9/24/18

I CAN NOT Agree with The planners that they would not spend \$25,000., to provide a wall/solid type fence for their new neighbors AT The Auburn Woods Community. We are NOT second class citizens and should not be treated as such. All we ask is that you provide some security, privacy for us. Our homes are ONLY 30 FT. from your property line, with a retention swale between our properties. Lets be Fair.

-
122. Name: Robert Blazek (robertblairmusic@gmail.com) on 2018-08-07 13:14:17
Comments: We feel the city should reject this development with it being in a very small area off a narrow county road with no room for turning lanes. Why would The Council want to disrupt a very prominent business, Fox Farms, that brings lots of revenue to our city of Venice? It seems The Council is more concerned about squeezing lots of homes in a small area, next to a six lane interstate and a horse farm that needs protected. When we purchased our home off of Auburn in Sawgrass, we had no idea that they would rezone it to accommodate this development. We hope The Council will consider all the negatives that go with this development and realize that it is not a 'good fit' for this location. You are elected officials and we hope you will do what is best for ALL residents of Venice.

-
157. Name: Jason (jolee1927@gmail.com) on 2018-08-07 14:22:50
Comments: As a resident on Auburn Road, we are very concerned of the impact this new addition will have on Fox Lea Farms, Sawgrass, and other residents close by. Fox Lea Farms is a unique and very special attraction in Sarasota County and they have always been good neighbors. This will definitely have a negative impact on them. Also even if a sound barrier is not put up, the noise factor from I 75 will definitely decrease property values in Sawgrass etc. We ask that the council please be respectful of its current tax paying residents and consider all the future negative implications that these homes could cause.
-
158. Name: barbara snyder (snydb515@gmail.com) on 2018-08-07 14:25:19
Comments: The Murphy Oaks development will seriously and negatively impact our quality of life and the value of our properties.

Comments: The pristine beauty and nature of Sawgrass and the neighboring area, will be negatively impacted by this additional building. I am concerned, not only for the people,

but for the wildlife of Venice.

-
187. Name: Nancy (nancyjophillips@hotmail.com) on 2018-08-07 15:39:57
Comments: This is not the right location for this type of dense housing. Think about the future implications and why do something now that will be a very expensive proposition in the future for Venice taxpayers. Consider what has been happening the last few years with developers that were granted locations. We are already seeing the negative effects of some of these places.
Thank you for your consideration.

200. Name: Julie Ditmarsen (juliebd0825@gmail.com) on 2018-08-07 16:07:03
Comments: My greatest concern is for wildlife.
We are crowding them out.
- As a recent newcomer to Sawgrass I feel very fortunate we were able to find our piece of Paradise. Yet I can only imagine 15-20 years ago there were very likely people who were not happy with development and changes that became our neighborhood. There needs to be a better plan put into action. I'm counting on the Venice powers that be to do the right thing and find a better solution. We need to PRESERVE PARADISE.
- It sickens me to see how the developers have already ravaged the land farther east at the Jacaranda / Border road property.

Comments: enough is enough.we don't need more houses in this and many other areas.who is making all the money allowing this over-building?
-
239. Name: Janet LeBlanc (leblanc713@gmail.com) on 2018-08-07 19:28:15
Comments: Also concerned about the smoke when the area is cleared Husband has COPD . Also what about the horses?
-
240. Name: Pat Mccutcheon (Pkmcc0866@aol.com) on 2018-08-07 19:31:44
Comments: Hurts existing developments--Sawgrass, Waterford, Fox Lea. Ignores previous zoning regulations. Completely changes neighborhood atmosphere. May cause additional legal fees. Traffic on Edmondson will be excessive. It and Border Rd will not handle the traffic that will come with current approved plans for all the housing going in in this area.

Comments:
-
252. Name: ROBERT WILSON (rhwilson2002@verizon.net) on 2018-08-07 20:52:52
Comments: Development in the Venice area is far outpacing the construction of the necessary infrastructure to support such development. The planning and zoning commissioners and the city council need to act and vote more responsibly and stop bowing to the desires of developers.
-
253. Name: Jennifer Sites (jensites0@gmail.com) on 2018-08-07 20:58:21
Comments: Despite all of the issues such as compatibility, traffic, wildlife, adjacent property concerns, etc. , the city planners and city council are willing to sell Venice out for whatever their agenda entails. It is really sad to see such a beautiful place be rapidly diminished to somewhere that very soon is not going to be very appealing to live. Despite all their rhetoric about controlled development and community beautification, it appears to be all about the money. Perhaps there will be a stronger voter turnout during the next local election to reflect better representation for the people of Venice.
-
254. Name: Vincent R Sites (vincentrsites@gmail.com) on 2018-08-07 21:06:01
Comments: Claims by the city council and planners to be desiring limited controlled

development are clearly facetious, but this is no laughing matter. Venice is clearly under siege by the developers and the city planners and council are complicit. This uncontrolled orgy of development is rapidly destroying Venice as we know it.

-
283. Name: Henry Sarnecke (hanksem@comcast.net) on 2018-08-08 03:19:07
Comments: The existing infrastructure is already insufficient to absorb all the development taking place in the City of Venice and the County of Sarasota. Also the additional congestion this development will create is not desirable. This development would be harmful to our quality of life and the environment. Finally, Fox Lea Farms would be negatively impacted by this expansion and the people who would live in this development would be negatively impacted by the Farms proximity to .them.

289. Name: Barbara Vendemia (sbvend@comcast.net) on 2018-08-08 12:09:05
Comments: The original zoning on that property was for just a few homes, not 100+. Also, traffic on Auburn Road will increase so much that a stoplight will need to be installed on our country road. Such a shame that a builder's desire to profit is more important than preserving the tranquility of the environment.

-
308. Name: James Courtright (jimcourt1@verizon.net) on 2018-08-09 01:44:16
Comments: This development will contribute to suburban sprawl that is going to choke off existing roads in Venice, adversely affecting existing neighborhoods. North Auburn, Edmondson, and Border Roads are going to be flooded with cars once other approved development is completed. The City has failed to provide for adequate roads, letting developers off the hook, and it's time to stop.
-
309. Name: Phyllis Dlugolencki (plsawgrass@verizon.net) on 2018-08-09 03:35:53
Comments: This corner cannot accommodate another development and should not be considered by the city of Venice.
