Re: 1) Opposition to Change Residential Planned Unit Development (PUD) for developer Mr. Neal to build a regional shopping center at the corner of Laurel Road and Jacaranda Boulevard

2) Opposition to 3 pickle ball courts within the Venetian Golf and River Club

From: Anne R. and Hudson C. Smith

16-year permanent residents in VGRC, 101 Medici Court,
North Venice, FL 34275

We are in total OPPOSITION to both above referenced proposals currently being considered by the Venice City Planning Commission.

We are NOT willing to make any negotiations with Mr. Neal on Item 1. We do not need a commercial development in-between quiet neighborhoods in this area along county roads. The proposal is larger in total development than the existing commercial development now at the corner of Laurel Road and Pinebrook Road, where there exists a Publix, of less square feet than what this proposal proposes. We have plenty of grocery stores nearby, including two Publix stores each approximately 1-1/2 miles away. Mr. Neal clearly stated there would be NO commercial development on that corner as recently as his sales began at his nearby Milano development. Negotiations with Mr. Neal have suggested the possibility of a round about at our VGRC main entrance, perhaps moving our entrance or making entry/exit changes to our existing main entrance and the exit only for residents onto Laurel Road. It is Mr. Neal's intention to have no light at our entrance but add one at Laurel Road and Jacaranda Boulevard. Traffic nightmares!!

For many obvious reasons as you have clearly heard from many residents, it is I-N-S-A-N-E to "slam upon" our 18-year, established community as well as surrounding new communities which are mostly developed by Mr. Neal, to even consider this proposed commercial corner!!! There is currently a commercial strip-mall property

at the corner of Knights Trail and Laurel Road and is **still 90% vacant after approximately 10 years!!! Really!!!!** Plus, commercial property is currently being developed at the east corner of Knights Trail and Laurel Road. There seem to be **PLENTY OF COMMERCIAL FACILITIES** available to VGRC and other new community residents, nearby!

Mr. Neal currently has TEN developments on-going as is shown in the Sarasota Herald Tribune most weeks, advertising all housing developments in our area. He needs to be responsible enough to guarantee more open space and wetlands in all, rather than stuffing more in his pockets!!!!

Regarding **Item 2**, we are in total **OPPOSITION** of our community building three pickle ball courts which would also eliminate an existing River Club parking lot. We are currently budgeting costly upgrades to our outdoor spaces and function around our tiki bar area. We are currently experiencing very difficult operations at our River Club, consistent with the results of pandemic and employee availability. Residents are not supporting our River Club dining opportunities and until, and when, "the world environment" corrects itself, **it would be unwise to budget further monies for much of anything beyond what we currently are committed.** Additionally, there are plans to build a small park on Laurel Road which is planned to include pickle ball courts.

Thank you for reading our **OPPOSITION** to both items currently being considered by the Venice City Planning Commission.
