

FLAMINGO DITCH FEASIBILITY STUDY

PUBLIC MEETING

WHEN MONDAY DECEMBER 16, 2024 AT 1 PM

CITY HALL, COMMUNITY HALL ROOM

WHERE 401 W. VENICE AVE.
VENICE, FL 34285

Coastal Protection Engineering (CPE) is conducting a study at the request of the City of Venice (City) to assess potential alternatives to reduce or stop the flooding on the roadways and properties surrounding the existing Flamingo Ditch (Outfall 5). An in-person meeting will be hosted by the City and CPE to solicit input from the public to be taken into consideration in the study. After a brief presentation by CPE, comments will be heard from all those who are signed up to speak. Register to speak in advance by scanning the QR code below no more than three days prior to the meeting. For more information or to submit comments electronically, visit www.flamingoditch.com.
