

Interactive, Digital, Kiosk Project

Accessibility and Wayfinding in
Historic Downtown Venice

Project Description

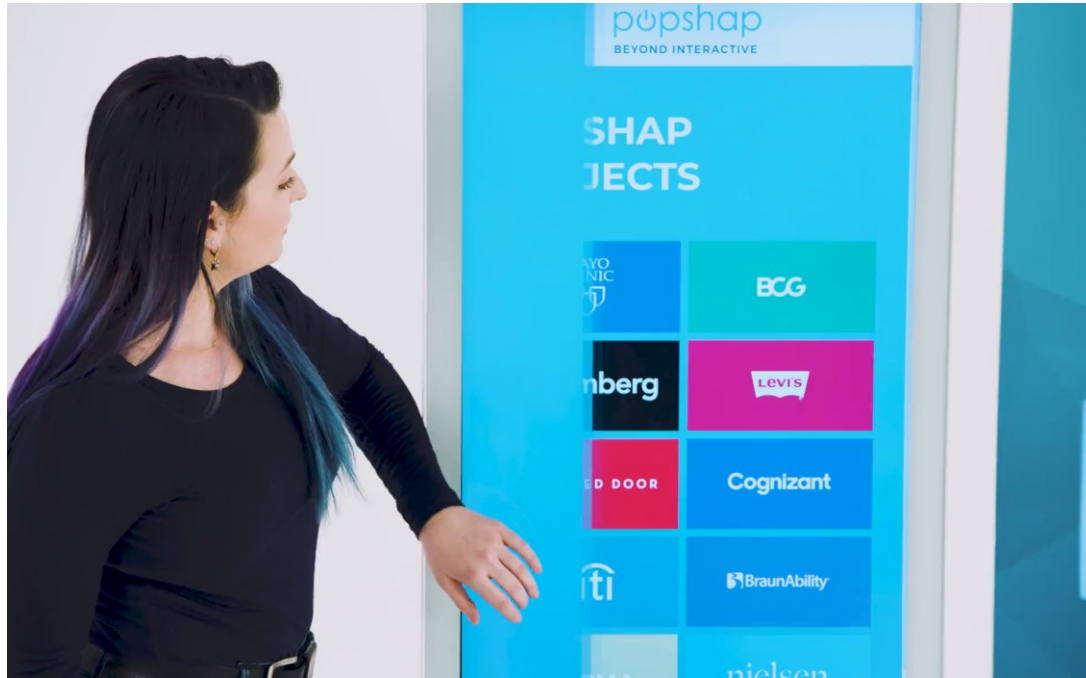

Concept rendering

- Venice MainStreet seeks assistance for the purchase and installation of a digital, interactive kiosk in near the existing physical kiosk in Centennial Park.
- The interactive kiosk will serve as an information hub for residents and visitors, enhancing the experience of being in Venice and promoting our many amenities.

Expected Benefits

- Elevate Engagement
- Support downtown economic vitality
- Expand local emergency and safety notification platforms
- Enhance customer analytics

Lake Okeechobee Main Street

Timeline & Cost Estimates

- Infrastructure needs (electricity, wifi, placement/location, & permitting. City staff has been notified of these needs and are poised to help.
- Four months from signing vendor contracts, to installation, and utilization
- \$30,000 total including unit, software, set up and installation, and annual support.
- Ongoing \$1,000 annual tech support and system upgrades.

Partnership

Venice MainStreet seeks funding, permitting, and infrastructure assistance with the purchase of the unit and total introductory costs.

Venice MainStreet will manage, produce content, and update the unit and the annual support costs through the funds from the existing partnership contract with the City.
