**Subject:** Re: Federal Appropriations Requests

The four critical areas that I would propose our focus are:

- 1) Beaches .....big costs, affects resident homes , and our tourist revenue
- 2) Public Safety.....New High Tech Station  
....better location to residents , protected form storms and other threats  
storm command resource .
- 3) Streets, bicycle trails , sidewalks, exercise trails  
Needs maintenance on existing, new in areas, better traffic flow, and improved safety.
- 4) Mental Health  
Homeless , and others needing mental health support.
