Lori,

Please place this string of emails on the agenda as a discussion item for council. This is a perfect example of why there should be one phone number for any problem within the county (the city is within the county) . This took our staff time, county staff time and ended with county staff recommending to our City Manager and Assistant City Manager.

One call to one number could have resolved this much more efficiently.

Thanks,

John

Subject: FW: Laurel Road Roadside Grass.....not mowed

Good Morning Gentlemen:

Please see the email chain below, and the attached pictures. I consulted with our staff and was informed that this area is under the maintenance responsibility of the FDOT. Our staff reached out to FDOT as a courtesy, and was informed that

their contractor should be mowing the area today. In the future, it may be more expeditious if your staff reach out directly to FDOT.

Sincerely,

Mark A. Cunningham, AICP, CPM
Assistant County Administrator

The county just mowed in the Laurel road area and this was not mowed again?
In the past this area was always mowed.

From I-75 Laurel Road ramp to Knightstrail the grass is not mowed whether it's dry or wet.
