Subject: FRACKING

Lori, I would like to include this topic in our next agenda package for city council.

My goal is to create an ordinance to prohibit FRACKING in the City of Venice.

To date there is little to no oversight on this subject.

We were elected to protect and serve the public and this is something we as a city council needs to do to for fill that comment.

I would direct people for additional reference material by googling:
"FRACKING IN DENTON TEXAS"

Hi Fred
Good Luck!
Mitz
