

## MEMORANDUM

**FROM:** Harry Klinkhamer, Historical Resources Manager  
**DEPT:** Planning & Zoning  
**TO:** Historic and Architectural Preservation Board  
**DATE:** July 2, 2024

**SUBJECT:** Gulf View Section Historic Structures Survey Revisions

---

In August 2023, the City of Venice hired Chronicle Heritage to conduct a historic resources survey of the Gulf View Section of Venice. The purpose was to update Florida Master Site Files for resources in that section as well as to capture those historical resources that went beyond the John Nolen Era (1926-1929).

At the May 9, 2024 Historic and Architectural Preservation Board (HAPB) meeting, the board recommended adding the John Nolen pocket parks known as the "Nolen Greens" to the survey. The HAPB also requested more time to review the report. A revised report with the Nolen Greens has been concluded and is here for the HAPB to review.
