

**City of Venice**  
**THREE ASKS PLEASE**

**September 12, 2023**

We made the initial presentation in July 2016 to rebuild Laurel Road. Here it is (gosh, we need to get this done because of all the time and overhead it has eaten up for all parties concerned).

**1. Please help us:**

Would you please help us get Sarasota County to begin the land acquisition process for those land parcels which are not owned by Neal Entities (only 3, one of which we do not really need)

**2. Funding source:**

We reiterate that think the MURT should have its own funding source (the park impact fees) so that we can create the amenities on the MURT that we need in order to use the 2 parks as barbells with a parcourse or “fun things to do along the way between the 2 parks”.

**3. The \$1.9 Million Dollars:**

Maybe it is too much to ask that the county give us their resurfacing money (until recently budgeted from Sarasota County to resurface Laurel Road).

We hope to start this new project no later than January 30<sup>th</sup>, 2024.
