Subject: Venice Water

Dear Council,

We lived in Toms River, NJ. Hear of it? It had major city water problems, and the water company withheld important water quality information and even lied about it. They KNEW certain wells were tainted with carcinogens, and continued to allow the water to be used! We knew/and know several friends who are now dealing with cancer, and a young friend of ours died.

We naturally have SERIOUS concerns when we heard there could be issues with our water in Venice!

Act now! Do not hesitate to test our water! Release the information to the public!

Concerned,

Robert and Janet Conover
