I am a resident of the Venetian Golf and River Club opposed to putting Pickleball Courts at our River Club. Reducing the number of parking spaces at the river club is not a place for Pickleball Courts. There have been events that filled the parking lots and caused over flow parking on the nearby streets. Pickleball is noisy and does not belong near houses, it belongs in the park you will be building a short distance from our community. Pickleball will be played by a fraction of our community and spending money on this is not in the best interest of our community when there is much work to be done with the clean up of hurricane Ian.

The request for approval of Pickleball Courts should not be approved.

Council,

This hearing is illegal. Original planned design we bought into did not have this project in design.

This project will alter River Club designed landscape presentation!

UGLY! Big black sound abatement on entrance to River Club'

Hello,

My name is James Hart and I am a resident living in the Venetian Golf and River club residing at 102 Caneletto Way.

I am writing to urge you to not approve the proposed pickle-ball courts in the VGRC Community.

This is pretty simple for me. I don't understand how residents of the VGRC community can approve something that unfavorably impacts their neighbors. It's not just unneighborly, its selfish and mean spirited. Furthermore, the argument that the residents who currently live near the existing community amenities should have somehow expected or should just readily accept more amenities is self centered, selfish and without and concern for those who live close by.

Please, there are enough issues going on right now regarding Laurel expansion and its impact on residents in the VGRC and others. Many residents are already feeling powerless in their efforts to maintain some semblance of balance and sanity.

Theres no need to pile on with this one even if it only effects a few of us.

Sincerely,

Jim Hart

I really love pickleball and it is hard to find a court to play on with people of my caliber. I had signed the petition opposing the courts at the VRC under duress- I felt. I knew one of the women that came knocking at my door in the middle of the afternoon and signed it because I don't like confrontation in this community. I want my vote for the pickle ball courts to be counted, but I don't want to be in the middle of the controversy. Thank you Sarah Epperson

We live in this community and feel that the placement of the pickleball court is in the wrong location. In addition, we believe The Board shouldn't spend money on any optionals like pickleball when we still have a lot of hurricane repair that still needs immediate attention.

RE: Pickleball courts at Venetian Golf and River Club.

Please accept this note as my opposition to putting pickleball courts at the Venetian Golf and River Club in the parking lot near the tennis courts. The fact that an opposing petition with over 1000 signatures has been done, speaks to the opposing position of the majority of residents of VG&RC.

I oppose the pickleball courts in this location due to the noise for the residents in the condos. Plus, I oppose the pickle ball courts because of the expense and location choice. Plus, wondering have all the studies and structural changes to the area for example storm drainage been thoroughly investigated? Has a budget been put forward?

It is my understanding that public pickleball courts are being put into a park off Laurel near VG&RC. Plus, there are pickleball courts at Laurel Park.

Regards,
Jo-Anne Fondyga

Good morning.

FYI as a Realtor in this area for 18 years, now, I have experienced the hot demand for pickle ball facilities.

This is typically one of the first questions I get asked about an amenitized community - do they have pickle ball?

Please see at the link below an interesting article from the New York Times from September 22, 2022, about pickle ball, it's 40% growth factor between 2019 and 2021, and the fact that there are now millions of avid pickle ball players out there - and growing.

<https://www.nytimes.com/2022/09/03/well/move/pickleball-popular-sport.html>

All I know is that people coming to Florida are looking for outdoor living - and pickle ball.

Local buyers moving up into an amenitized community want pickle ball.

Please feel free to contact me if you have any questions, or if I can be of service in any way.

Thank you.

Sacrificing a parking lot for pickle ball courts will leave the River Club very short of parking. This should have been done before all the land here was parceled out a few years ago. Now the pickle ballers are trying to put a court in without paying for a lot and certainly not near where they live to deal with the noise and the traffic they want to impose on the rest of us. This is an afterthought and not fair to others in the Venetian. This pickle ball group will just not go away. Sheila LeFevre, Venetian resident.

We have owned a home at the Venetian Golf and River Club since March, 2004...19 years.

We are in opposition to construction off new pickleball courts for the following reasons.

1. At the time of the purchase of our home, pickleball courts were not in the development's plan. If in the overall future building plan for the Venetian, because of our proximity to the proposed pickle ball courts, we would not have purchased our Venetian home in 2004.
2. The noise and disruption to the privacy of the homes near the pickleball courts will substantially diminish the value of our homes. Pickleball play has a very distinctive ping sound and the sound is enhanced traveling over the bodies of water like the "lakes" behind the many neighborhood homes within 100 to 200 yards. Plus the River Club's tennis courts, tiki bar, and community pool areas will be affected by the pickleball noise.
3. The city of Venice is building a park area about 1/2 mile west of the Venetian on Laurel Road which will include 9 pickleball courts. Seems redundant to construct 3 pickleball courts at this time at the Venetian which will be costly when 9 courts are going to be built nearby.
4. Placing pickleball courts in corner of River Club parking lot will take away 13 needed parking spaces and contribute to parking congestion and street parking during some River Club events which could cause added safety issues with pedestrian, car, and bicycle traffic.
5. There currently is a large storm drain basin in center of the parking lot where the Pickleball courts are to be built. Will the Pickleball courts cause excessive flooding if built in this location and storm water drainage into sewers is blocked by the pickleball construction?
Seems like a potential problem.

We are writing the City Council members to let you know that as residents of The Venetian River Club, we are enthusiastically in favor of constructing Pickle Ball courts in my community. As the fastest growing sport everywhere, we consider them a lifestyle enhancement which adds value to our homes. There is evidence that with the planned noise-mitigating actions, we will be in compliance with City of Venice noise regulations. In fact, our newly renovated and enlarged Tiki Bar (in same vicinity) is very popular many evenings of the week and has live music after dark on Friday nights (and other designated times for special events.) In addition, there are outdoor exercise classes accompanied to music in a nearby area of the proposed Pickle Ball courts. As you can see, the outside area of our Clubhouse is well utilized in our community already. And while we are not advocating that lighting be installed for after-dark play, our 6 tennis courts in the same vicinity do have lights for play until 9:30 pm. We urge the Venice City Council/Planning Committee vote to approve our request for Pickle Ball courts at The Venetian.

With sincere thanks,
Diane & Richard Herman
