Greg,

Thank you so much. I am replying from the City email as this deals with City business. Continue to use my personal email for personal items but please use the City address for any City business. February 9 would be great for a presentation and we will schedule it for either 1 or 1:30 at the start of the afternoon session. We are considering changing the start time, but that's on next week's agenda and I don't know how Council will vote.

I have a request for the SCRR to consider:

The make shift mooring field out by the Yacht Club has been an item of contention for quite some time. There have been many allegation of illegal dumping and improper mooring. I think it would be great if the SCRR folks could take a look at the bottom around there and give us some nice photos of what's really down there. Just a thought for a little different type of dive.

Best Regards,

John
