

Do The Right Thing Conserve Water! Every Drop Counts!

~ Ways you can conserve water ~

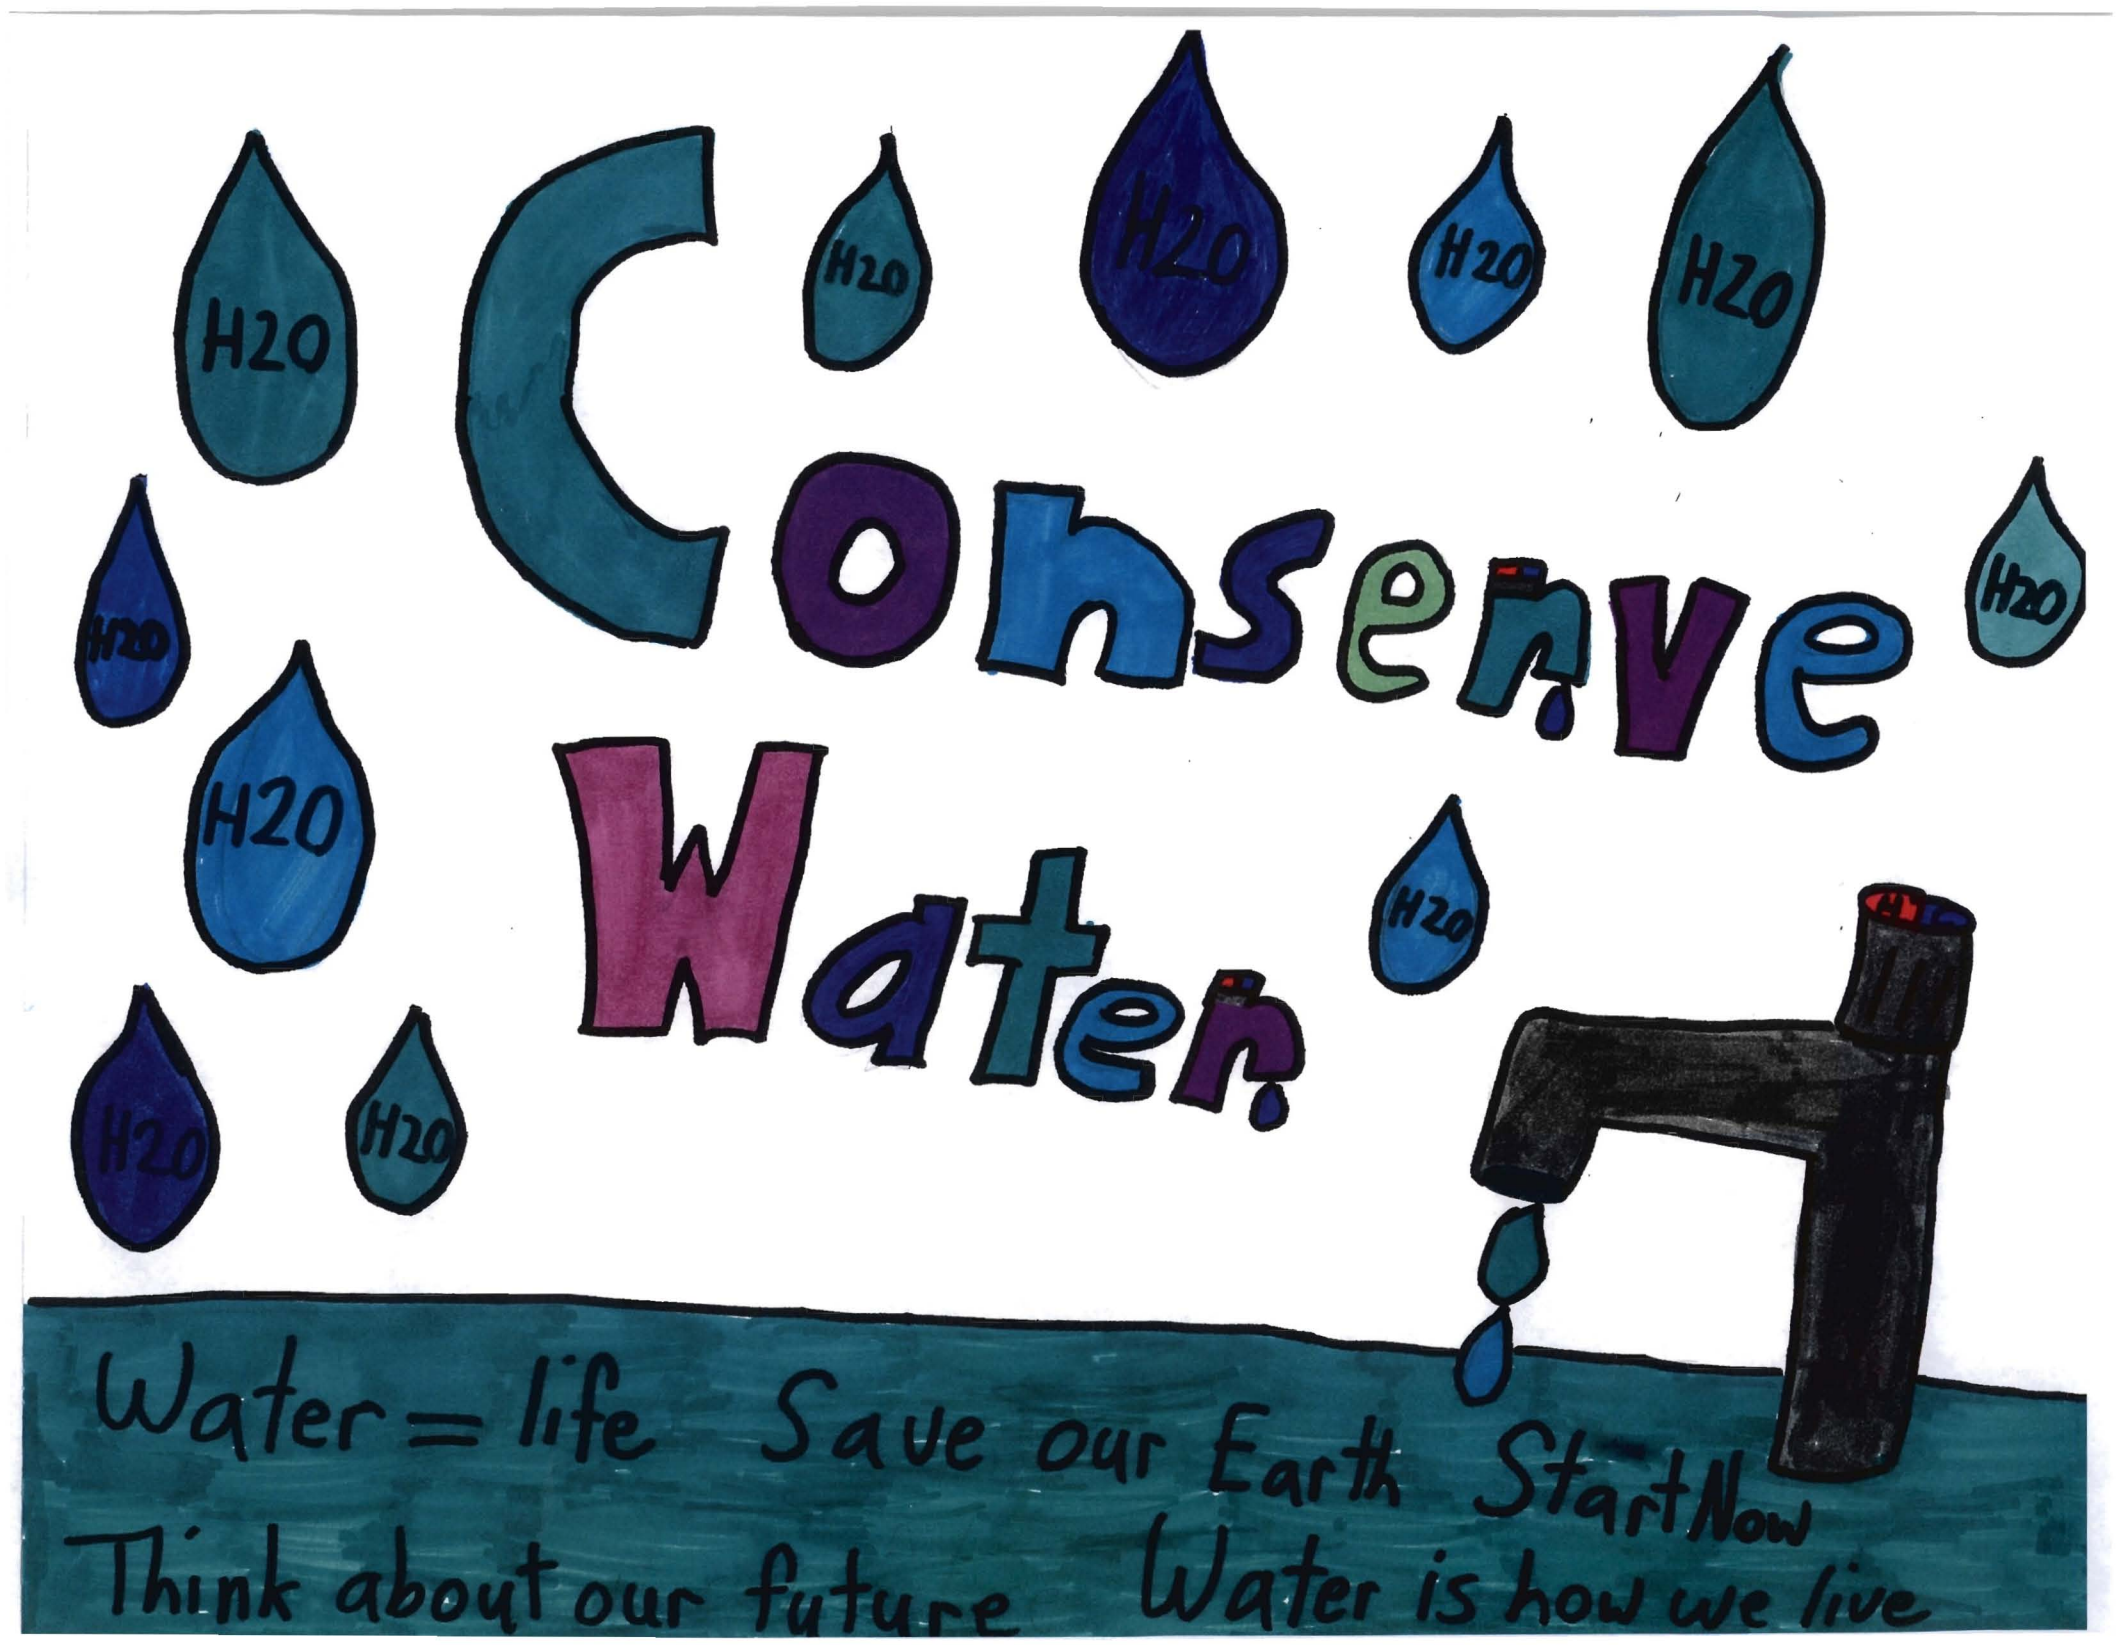

- No dripping faucets.
- Collect rainwater for plants.
- Take short showers.
- Don't leave water running for a long time.
- Follow the city guide lines for watering your lawn.
- Get low flush toilets.

Every Drop Counts!

Let's conserve
our H₂O
together!

A hand-drawn poster with a white background. The title 'Conserve Water' is written in large, colorful, bubbly letters. The word 'Conserve' is in shades of blue and purple, while 'Water' is in shades of pink and blue. Surrounding the title are several hand-drawn water droplets in various shades of blue and purple, each containing the chemical formula 'H2O'. In the bottom right corner, there is a drawing of a black faucet with two water droplets falling from it. The bottom of the poster features a dark blue horizontal band containing the text 'Water = life Save our Earth Start Now' and 'Think about our future Water is how we live' in a simple, black, handwritten font.

Conserve Water

Water = life Save our Earth Start Now
Think about our future Water is how we live

SAVE our water!

Save... EARTH!
