

Dear Sir

Untitled Variance Petition
No. 13-3V2

I am writing in regards to the public hearing re the Crow's Nest extension.

I am not in favor of this extension because The crow's nest restaurant creates extra traffic in a residential area. There is not enough traffic control in the area now, so we do not need to have more traffic coming down Tarpon Center Dr. The traffic needs to be monitored and a police presence at certain times in the evening

before someone is seriously injured or killed. Speed bumps might be an answer or speeding

tickets handed out.

I cannot help but feel that by holding this meeting at this time of the year you are not giving

the people affected by this additional traffic a proper chance to be present at this meeting.

Thank you

Doug and Sharon McGladdery
