New 600 Amp Service

We are pleased to offer you our proposal for the **Electrical** scope of work for the new 600 Amp Electrical Service @ the Venice Airport Festival Grounds. (**See attached drawings/sketches**)

Bid Summary:

New Service 600 Amp	\$ 48,500.00 (Highlighted Green)
New Panel 'E'	\$ 6,600.00 (Highlighted Orange)
New Outlet 30 Amp (350')	\$ 3,400.00

Scope of Work:

1. Tax for material items is included for all material and subcontracts.
2. **New 600 Amp Service:** Includes new Meter, Riser, Main, MDP 2 (600 Amp Distribution Panel), Feeders (up sized to accommodate voltage drop). MDP2 will now feed Panel 'C' and 'B'. New connections from MDP 2 to panel 'C' and 'B' are included. Directional Boring is also included. Permit is included.
3. **New 225 Amp Panel 'E':** Add a panel due north of the current Panel 'C' location across the tarmac as discussed during my job site visit. This panel would be fed 225 Amp. The panel would have (20) 1 pole 20 Amp breakers (6) 2 pole 30 Amp breakers and (2) 2 pole 50 Amp breakers installed.
4. **New 30 Amp Outlet:** This outlet is 350' away from the source power. The wire is up sized (#6) to accommodate voltage drop. This outlet is 120/240 Volt 30 Amp weather proof outlet.
5. Contract would be acceptable, but would not be required in this case. A purchase order, work request, or sign this proposal would be sufficient. This will be treated as service work and we would prefer no retainage be withheld.

Customer Acceptance _____ Date _____
