**Subject:** Venice/ County Interlocal Agreements ....Aug 23 agenda item

Ed , it has been several months that 2 agreements were discussed with council, however no action has been presented to council for approval.

1) impact fee for roads changed to Mobility for funding of sidewalks and bike lanes.

This was discussed about 9 months ago? Need to resolve this agreement so sidewalk and bike lane funding is available .

2) in 2015 FDOT and the county wanted us to maintain certain traffic lights.

Staff indicated that we did not staff or training to provide this maintenance. Staff proposed asking the county to provide this service. Council agreed.

However we still do not have an agreement.

This issue came out in our meeting with MPO /FDOT last month.

This agreement with the county needs to be resolved ASAP

Lori, please place under old business with Ed and Ms. Weeden presenting an update status.
