Commissioner Hines forwarded this information. Please do not reply to this e mail; Lori, please place this on the next agenda for council discussion.

Thanks,

John

John: On Friday WCIND authorized an outfall from a proposed FDOT storm-water pond to go under the trail.....see attached.

The heads-up for the City and all involved with the trail is to talk to FDOT of about the design of this pond. As it will be along the trail it should be an enhancement aesthetically and for access to the trail verses just the standard old retention pond with a fence around it. I will talk to FDOT as well but thought the City and others should be aware of this.

Hi Robin,

Here is the sheet Comm. Hines requested (from the WCIND Board meeting). Could you please provide this to him?

Thanks so much!

Laird
