Subject: RE: PRESENTATION FROM UTILITIES

Fred

This would appear to be a considerable work assignment for the Utilities Department. Therefore, if you want the presentation it should be a Council decision to direct me to assign that work to the Utilities Director. The appropriate path would be for you to put in on the Council agenda under Council Action/Discussion, and to make a motion to direct me to have the presentation developed

Subject: PRESENTATION FROM UTILITIES

Lori and Ed, I would like to put a request in to have Utilities develop a presentation for Council and other committees that could impact the decisions they make regarding various aspects of the Cities Utilities functions. It would be very beneficial to include all aspects of water, sewer and reclaimed water. I would be happy to meet with you to discuss this.

If this could be put on an agenda in late September or October that would be fine.

I was hoping something could be made available by February or March of next year.
