

For Council Action/Discussion

Discussion Item: Request that the City Manager research the necessary requirements and protocol for the Venice Police to potentially provide traffic enforcement on private roads

Reason for Request: Two large separate communities in Venice have questioned whether this service is available and can be provided. Although their exact need and desire for such service is currently uncertain, they have expressed interest in learning the specifics, including the statutory requirements, of commencing traffic enforcement in their respective neighborhoods.

Other Considerations: This is NOT a request to approve this service. It is to determine whether this service can be provided, and if so, the required steps necessary to fulfill such service. It will provide additional useful information to many of our residents regarding this topic of safety. Precedent does exist for this type of service in other municipalities in Florida

Thank You. Rich Cautionero
