Request to Name a Designated Facility Located at 224 Milan Avenue after Dale Laning and Julia Cousins Laning

Mr. Klinkhamer, Historical Resources Manager, provided an overview of the application and a recent update he received on naming of Triangle Inn Building rather than 224 Milan Ave.

Discussion took place regarding the current policy plan for naming parks and buildings, concerns with naming anything at this time, questions on how has someone contributed to the community other than a donation, current application requires more information to be entered in an effort to make a decision, conduct a complete review of process and request more information on applicants and the board will not approve any application until a newer process is in place sometime in the first quarter of 2018.

Mayor Holic spoke regarding the steps for a new process of naming parks and buildings, weakness in the statement of criteria used to name a park, guidelines for monetary contributions, community contributions, Nat Burns Public Works building and board drafting guidelines to bring forward to city council.

Discussion took place regarding the process for bringing a new process to city council, ideas of forming a committee and present to the board, designating a facilitator, concerns with violating the sunshine law, requests for recording secretary to speak with City Clerk on choosing a facilitator for this project.
