New Business: Bob Daniels. Vice Mayor

Issue : Utility water testing costs\$21,000

The city was forced into hiring an outside contractor to test our drinking water due to an national water filter company making false statements about Venice Water.

Motion: direct City Attorney to send a letter with our water report to the filter company making false statements asking for a written retraction.

Compete by end of February 2018,

Regards,

Vice Mayor Bob Daniels

City Of Venice , Florida
