Subject: Council agenda

Good afternoon Lori,
Please place two items on the agenda for council consideration,
First, multi axel vehicle traffic on west Venice Avenue,specifically downtown.
What are the pros and cons of a prohibition of multi axel vehicles in downtown Venice?
Solicit councils agreement to direct staff to evaluate the possible prohibition.
Second, does the City and County have adiquate bonds from developers to ensure repair of
roads, sidewalks,drainage and infrastructure damage caused by construction projects?
Solicit council and staff input regarding the legalities of the requirement for bonds to be held for
needed repairs to City and County infrastructure.

Thank you for your help,
Chuck Newsom
