**Subject:** Fwd: Capri Isles Bridge Inspection Report

Lori please this bridge on our June 12 Council Agenda under new business.  
City Manager to provide council with a status report for councils discussion and proposed action.  
Council needs cost to repair or replace and proposed funding.

Sincerely,

Vice Mayor, Bob Daniels

Fyi

The state has funded \$1 million to fix this bridge. EST are about \$3 million. We are asking state to fund 50%,. Unfortunately this is the first time our council was informed of this issue from Engineering. We had other ways of funding this years ago .

Sincerely,

Vice Mayor, Bob Daniels

Ed,  
I think this is the type of capital project that may have been acceptable for the CRP program and we should follow through with an attempted application. Just because county staff has indicated that the CRP is currently unfunded, they are not the decision makers for future funding. I have copied Commissioner Maio so that he is aware of our pending application.

Thanks,  
John

**Subject:** RE: Capri Isles Bridge Inspection Report

Dear Mayor & Council,

Attached are the primary documents related to Capri Isles Bridge. As you will note the bridge deficiency letter was received by Public Works on 10/5/2017 (bond was voted on 11/6/16). Upon receipt of this letter, copies of previous bridge reports were researched and FDOT was contacted for missing reports. Sarasota County was consulted to provide estimate for bridge rehabilitation up to replacement as the most conservative estimate and an opportunity presented itself to apply for State Legislature Funds for the bridge. These funds are a direct appropriation by the State Legislature passed through FDOT which

expedites the funding process. Based on conversations with MPO staff, MPO funding would put us at the end of the new 5<sup>th</sup> year and since this is an off-system bridge, the priority would be lower. Since the road segment is included in the road bond list, the surface infrastructure and related bridge repairs/upgrades were determined to be an eligible Road Bond expense by bond council. A conceptual review of the bridge condition is currently being conducted by a structural engineering firm and a better estimate of required work and cost will be available in the next few weeks.

Thank you,

Kathleen

Kathleen

Do you have access to a copy of the bridge report? If yes, could you please forward a copy to the Council? Thank you
