City Council Meeting Agenda Item...Nov. 13,2018

Place under new businessVice Mayor Bob Daniels

Subject :Visible identification of Street storm water inlets that are connected to Gulf outfalls.

Issue: keeping items out of the drains other that storm water .

Background: inlets are getting into the drain landscape trimmings, restaurant grease, cleaning chemicals, and other items that could cause outfall contamination. Many residents and businesses do not know where these drains are located and how to property use them.

Proposed Project:

0. to identify all storm water street inlets that are connected to any of the 16 Gulf outfalls;

0. to paint with rust type paint a bright yellow just like the Harbor Lights HOA storm water street inlets;

0. stencil in red paint.....Don't DumpGulf Drainage

0. volunteers will provide the labor....Venice Main Street and Hands Over Water.....see emails confirming

0. PIO will develop a fact sheet on the use of street storm drains and how not to use. Mail out in water bills and all other media

0. require codes to visit street drains in the business and industrial areas bi monthly and report and correct any miss use

Business plan/ budget

...labor is community volunteers

...Engineering will need ID street drains

...painting materials and stencil will provided by the city.

Note; staff to ask local paint stores to provide materials.

Sincerely,

Vice Mayor, Bob Daniels
